Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

	I. Request Information			
A.	The State of	Maryland	requests approval for an amendment to the following	
	Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.			
В.	Waiver Title (optional):	Community Pathways Waiver	
C.	CMS Waiver	Number:	MD.0023	
D.	Amendment Number (Assigned by CMS):			
E.1	1 Proposed Effective Date: 7/1/2019			
E.2	2 Approved Effective Date (CMS Use):			
II. Purpose(s) of Amendment				

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:

The purpose of this amendment is to continue to: (1) support DDA's five priority focus areas (employment, self-determination, self-direction, supporting families, and supported housing); (2) align the waivers with DDA's transformation and incorporate feedback received through DDA transformation meetings, trainings, and presentations; (3) support program integrity (e.g. quality assurance/federal performance measures, protect people's rights, prevent fraud); and (4) ensure fiscal accountability.

The first amendment will include programmatic adjustments, such as:

- 1. Alignment of the services scope, requirements, limitations, qualifications, and effective date for the three home and community-based service waivers programs that support individuals with developmental disabilities which includes the Family Supports Waiver, Community Supports Waiver, and the Community Pathways Waiver.
- 2. Adjustment of some of the service implementation to provide additional time for rate setting and development of critical operational and billing functionality.

Notable changes in each Appendix in this amendment include:

Appendix A

Updates to the transition plan based on the amendment.

Appendix B

- 1. Increases to the projected number of individuals served (i.e. slots) to account for additional people enrolled in year 1 and future enrollment projections.
- 2. Adjustment to reserved capacity projections based on current experience and future projections

State:	
Effective Date	

3. Addition of two new reserved capacity categories including Department of Human Services
(DHS) Foster Kids Age Out and Maryland State Department of Education (MSDE) Residential
Age Out.

Appendix C

- 1. Alignment of services scope, requirements, limitations, qualifications, and effective date for the DDA home and community-based waivers;
- 2. Adjustment of some service effective dates from July 2019 to July 2020 to provide additional time for rate setting and development of critical operational and billing functionality;
- 3. Changes in behavioral support services qualification requirement including clinician experience and competencies and support staff behavioral technician training;
- 4. Changes in Career Eexploration, including the clarification of time limited for new users with authorization for up to three months 720 hours for the plan year;
- 5. Increase flexibility in nursing case management and delegation services to provide the option to authorize additional hours under residential services such as Community Living- Group Home services due to change in condition after a hospital or skilled nursing facility discharge;
- 6. Improvements to respite that include (1) a daily rate will be used for licensed sites and hourly rate for in/out of home services; (2) increase service to include a daily/hourly limit up to 360720 hours/year plus up to \$7,248 toward camps; and (3) adjustment to staff qualifications (i.e. GED/HS Diplomas/Age requirements);
- 7. Enhancements to shared living specifying various supports;
- 8. Addition of support brokers as a waiver services;
- 9. Change of terminology related to DDA-approved providers to DDA-certified providers; and
- 10. Updates to criminal background checks including new draft requirements.
- 11. Updates to environmental assessment and environmental modifications to support participants in community living-group home and community living enhanced supports with new accessibility needs (e.g. grab bars, ramp, stair glide, etc.) to support health, safety, access to the home, and independence.

Appendix E

- 1. Removal of support broker services as an administrative service;
- 2. Addition of support broker as a waiver service to support information and assistance in support of participant direction; and
- 3. Addition of budget authority for support broker services

Appendix I and J

- 1. Addition of support broker waiver services;
- 2. Adjustments to estimated users and projections;
- 1.3. Adjustment to behavioral support consultation services from an hourly unit to a fifteen minute unit; and
- 4. Payment systems will transition to Maryland's Long Term Services and Supports (MDLTSSLTSSMaryland) system on July 1, 2020.

III. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (check each that applies):

	Component of the Approved Waiver	Subsection(s)
	Waiver Application	
<u> </u>	Appendix A – Waiver Administration and Operation	
<u> </u>	Appendix B – Participant Access and Eligibility	B-1b.; B-3; B-6;
<u>∃</u> <u>X</u>	Appendix C – Participant Services	<u>C-1/C-3; C-2</u>
<u> </u>	Appendix D – Participant Centered Service Planning and Delivery	<u>D-1; D-2;</u>
<u> </u>	Appendix E – Participant Direction of Services	<u>E-1 and E-2</u>
	Appendix F – Participant Rights	
<u> </u>	Appendix G – Participant Safeguards	<u>G-2</u>
<u>⊟X</u>	Appendix I – Financial Accountability	<u>I-2</u>
<u>∃</u> <u>X</u>	Appendix J – Cost-Neutrality Demonstration	<u>J-1; J-2</u>

State:	
Effective Date	

COMMUNITY PATHWAYS WAIVER – Main and Appendix A Amendment #1 Page 4 of 74

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (*check each that applies*):

	Modify target group(s)
	Modify Medicaid eligibility
X	Add/delete services
X	Revise service specifications
X	Revise provider qualifications
X	Increase/decrease number of participants
X	Revise cost neutrality demonstration
	Add participant-direction of services
	Other (specify):

IV. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding this amendment is:

First Name:	Marlana R.		
Last Name	Hutchinson		
Title:	Deputy Director, Nursing and Waiver Services		
Agency:	Maryland Department of Health – Office of Long Term Services and Supports (OLTSS) Health Services		
Address 1:	201 West Preston Street, 1st Floor		
Address 2:	ss 2:		
City	Baltimore		
State	Maryland		
Zip Code	21201		
Telephone:	(410) 767-4003

State	Maryland	
Zip Code	21201	
Telephone:	one: (410) 767-8690	
E-mail	Rhonda.Workman@maryland.gov	
Fax Number	(410) 333-5850	

V. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the State's request to amend its approved waiver under §1915(c) of the Social Security Act. The State affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The State further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The State certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:

This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The Community Pathways Waiver is designed to provide support services to individuals and their families, to enable participants' to work toward self-determination, independence, productivity, integration, and inclusion in all facets of community life across their lifespans. It supports individuals and families as they focus on life experiences that point the trajectory toward a good quality of life across the lifespan. Services can support integrated life domains that are important to a good quality of life, including daily life, safety and security, community living, healthy lifestyle, social and spirituality, and citizenship and advocacy. These services will build on each participant's current support structures to work toward individually defined life outcomes, which focus on developing the participant's abilities for self-determination, community living, socialization, and economic self-sufficiency.

The goals for the Community Pathways Waiver include:

- Innovative service options aimed at providing supports that build on the DDA's existing Community of Practice related to Employment and Supporting Families;
- Participant and family self-direction opportunities;
- New Supported Living and housing support services to increase independent living opportunities; and
- Transitioning to new Employment Services and provider rates.

As an Employment First State, Meaningful Day and Employment services are predicated on the belief that all individuals with developmental disabilities can work when given the opportunity, training and supports that build on an individual's strengths. Employment is the first service considered but not the only choice. The intent of services and supports are to shall increase individual independence and reduce level of service needed.

Waiver Organizational Structure:

The Maryland Department of Health (MDH) is the single state agency for Medicaid. MDH's Office of Long Term Services and Supports (OLTSS)Office of Health Services (OHS) is responsible for ensuring compliance with federal and state laws and regulations to the operation of the waiver. MDH's Developmental Disabilities Administration (DDA) is the operating state agency and funds community-based services and supports for people with developmental disabilities. The DDA has a Headquarters (HQ) and four Regional Offices (RO): Central, Eastern, Southern, and Western.

The DDA utilizes various agents, licensed providers, and contractors to support the administrative, operations, and direct service delivery. Medicaid State Plan targeted case management (TCM) services are provided by licensed Coordination of Community Services (CCS) agencies. The MDH's Office of Health Care Quality (OHCQ) performs licensing, surveys, and incident investigations.

Participants will receive case management services, provided by licensed Coordination of Community Services (CCS) providers, through the Medicaid State Plan Targeted Case Management (TCM) authority. Each Coordinator of Community Services assists participants in developing a Person-Centered Plan, which supports ensuring individual health and safety needs are being met. The coordinator is also responsible for conducting monitoring and follow-up to assess the quality of service implementation and services are actually provided, and assuring that participants are satisfied with the services they are receiving.

State:	
Effective Date	

Services are delivered under either the Self-Directed or Traditional Service Delivery Models provided by qualified providers (i.e. individuals, community-based service agencies, vendors and entities) throughout the State. Services are provided based on each waiver participant's Person-Centered Plan to enhance the participant's and his/her family's quality of life as identified by the participant and his/her family through the person-centered planning process.

Services are provided by <u>DDA</u>-licensed <u>and DDA-certified</u> community agencies and/or individuals and companies under the self-directed service delivery model. Providers offering career exploration facility based supports, day habilitation, licensed respite, community living - group home, and community living - enhanced supports waiver services must meet provider qualifications and have their provider owned and/or operated sites licensed. Services provided in the community or the person's own home such as employment services, personal supports, respite, and assistive technology and services must meeting provider qualifications to be certified by the <u>DDA</u>. Fiscal Management Services (FMS) and Support Brokerage services are also provided for individuals that use the self-directed service delivery option. This organizational structure provides a coordinated community-based service delivery system so that people receive appropriate services oriented toward the goal of full integration into their community.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

- A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.
- **B.** Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- **C.** Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- **D.** Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- **E.** Participant-Direction of Services. When the State provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):
 - Yes. This waiver provides participant direction opportunities. Appendix E is required.
 No. This waiver does not provide participant direction opportunities. Appendix E is not required.
- **F.** Participant Rights. Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
- **G.** Participant Safeguards. Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.
- I. Financial Accountability. Appendix I describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

State:	
Effective Date	

Attachments to Application: 10

J. Cost-Neutrality Demonstration. Appendix J contains the State's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

- A. Comparability. The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.
- **B.** Income and Resources for the Medically Needy. Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

0	Not Applicable
0	No
•	Yes

C. Statewideness. Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):

0	No
0	Yes

If yes, specify the waiver of statewideness that is requested (check each that applies):

Geographic Limitation. A waiver of statewideness is requested in order to furnish services
under this waiver only to individuals who reside in the following geographic areas or political
subdivisions of the State.

Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make *participant direction of services* as specified in **Appendix E** available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State.

Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- **A. Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
 - 1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;

State:	
Effective Date	

Attachments to Application: 11

- 2. Assurance that the standards of any State licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and.
- 3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.
- **B.** Financial Accountability. The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need: The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.
- **D.** Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
 - 1. Informed of any feasible alternatives under the waiver; and,
 - 2. Given the choice of either institutional or home and community-based waiver services.

Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

- E. Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.
- **F.** Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- **G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- **H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- **I. Habilitation Services**. The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Improvement Act of 2004 (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- J. Services for Individuals with Chronic Mental Illness. The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided

State:	
Effective Date	

as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR §440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- **A.** Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- **B.** Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.
- C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- **D.** Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix C.
- E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- **G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- **H.** Quality Improvement. The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process

State:	
Effective Date	

COMMUNITY PATHWAYS WAIVER - Main and Appendix A Amendment #1 Page 14 of 74

of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified throughout the application and in **Appendix H**.

I. Public Input. Describe how the State secures public input into the development of the waiver:

The DDA partners with people in services, self-advocates, family members, service providers, advocacy organizations, and subject matter experts to enhance services and supports for Marylanders with developmental disabilities. This partnership includes working with various groups related to employment, self-direction, supporting families, person-centered planning, coordination of services, supporting children, training, system platforms, and rates, and more.

The DDA also shares information and overviews of the waiver and services for various groups. These events provide opportunities to obtain additional information, input, and recommendations from participants that can influence waiver services, policies, and procedure changes.

The DDA recognizes and appreciates the diversity of input we receive from stakeholders. We carefully considered input and recommendations from people with developmental disabilities and various stakeholders for changes to our services, processes, and policies. The amendment is a result of input and recommendations the DDA has received from stakeholders.

The following list Examples of groups, meetings, subject matter experts, and presentations include:

Employment First Webinars related to Meaningful Day Services were held in which included request for feedback or questions to be sent in via email. Those pieces of feedback were used when looking at developing guidance and potential waiver amendment—July, August and November of 2018

Provider stakeholder group meetings were held to have a conversation related to changes in employment service definitions and focus on competitive integrated employment. Feedback from this meeting was used to develop policy and further waiver guidance—on July 25th and September 7th, 2018

Tiered Standards Leadership Team meetings were held to discuss potential tiered standards for current facility based services—on July 7 and September 12, 2018

Employment First State Leadership Team meetings were held on providing information to State partners in Employment First, including waiver updates. Feedback and recommendations were obtained and considered for waiver updates—July I., August 15, September 11, November 14 and December of 12, 2018

The DDA staff presentationsed at the Maryland State Department of Education (MSDE)
Professional Learning Opportunities (PLOS).—DDA staff presented at the MSDE PLOs to provide updated information regarding DDA's waivers, most specific to Meaningful Day services, answer questions, and obtain feedback for waiver enhancements in—on four dates in November 1, 5, 8, 9, 2018

State:	
Effective Date	

The DDA held mMultiple in-person meetings with DDA licensed or approved certified provider organizations to share information, provider technical assistance for compliance with the community-settings requirements, and obtain input new opportunities, challenges, and concerns.

Monthly Statewide Behavior Supports Committee monthly meetings were held related to behavioral supports services to include seeking input related to staff qualifications, requirements, and training.

The DDA Transformation Advisory Committee held meetings to share information and obtain input related to transformation efforts including waiver services challenges and concerns on- June 12, 2018, September, 10, 2018, October 25th 2018, November 16, 2018 December 6, 2018, and January 11, 2019

The DDA Coalition Meetings were held to share information and obtain input related to the service delivery system including waiver services—on July 10, 2018, August 2, 2018, and December 19, 2018

The Maryland Association of Community Services (MACS) m Meetings was held on to share information and obtain input related to the service delivery system including waiver services. September 13, 2018

The Self-Directed Advocacy Network (SDAN) held quarterly meetings, to share information and obtain input related to the service delivery system including waiver services—Quarterly basis

The Applied Self-Directions (ASD) monthly calls hosted with-subject matter experts to discuss various service delivery components related to self-directed services including training and curriculum development; waivers services; and national best practices.

The Service Authorization Work Group held four meetings to obtain input related to waiver in July and one in August of 2018 to obtain input related to services authorization and billing criteria. —July 18, 2018; July 19, 2018; July 24, 2018; July 25, 2018; and August 3, 2018

The Community Coordination Coalition (CCC) to shared information and obtain input related to the service delivery system and including waiver services input monthly—3rd2nd Thursday of every month.

The Technical Work Group to-shared information and obtain input related to services and rates on-June 13, 2018; August 10, 2018; August 31, 2018; and October 26, 2018.

Long Term Services and Supports (LTSS) Provider Work Group to shared information and obtain input related to the service delivery system including and waiver services monthly from July 10, 2018 to ; August 7, 2018; September 4, 2018;

October 2, 2018; November 6, 2018; December 4, 2018; and January 8, 2019

DDA Public Presentations – examples including:

- 1. The Hussman Center Institute Self-Directed Service Delivery Model presentation on July 24, 2018
- Maryland Association of Community Services (MACS) General Membership Meeting -DDA updates on September 13, 2018
- 3. Quality Trust Understanding the DDA Waivers on October 20, 2018 and DDA Service Delivery Models on November 3, 2018

State:	
Effective Date	

- 4. Transition Resource Fair Navigating Toward Independence Overview of the DDA Service Delivery Models on November 17, 2018
- 5. Maryland Association of Community Services (MACS) Conference DDA Hot Topics including waiver amendments on November 30, 2018
- 6. Kennedy Krieger Institute DDA Overview including waivers and services on December 7, 2018
- 7. Parents Place of Maryland DDA Overview including waivers and services on January 25, 2019

The DDA hired independent consultants, which conducted listening sessions in 2014 on DDA's behalf. In these listening sessions families expressed interest in gaining access to nimble, responsive, and flexible supports for children and adults with developmental disabilities.

The DDA developed this waiver application based on input from: (1) individuals, families, advocates, and community based services agencies; (2) Self-Directed Advocacy Network; (3) the Family Supports and Community Supports Waivers; (4) the Developmental Disabilities Coalition ("DD Coalition"), which is composed of leaders from the Maryland's Developmental Disabilities Council, Maryland's Protection and Advocacy Agency, People on the Go of Maryland (a self-advocate led organization), Maryland Association of Community Services (the largest community based service agencies association in Maryland), and the Arc of Maryland; (5) independent consultants; (6) national research; and (7) submitted public comments.

DDA Transformation Newsletter and Email

On January 17, 2019, the DDA sent out information to all stakeholders and partners regarding the Waiver amendment application and upcoming overview webinars. In addition, information about the upcoming amendment has been shared in the DDA Transformation Newsletter including the September 18, 2018 and January 23, 2019.

Dedicated DDA Amendment Webpage

The DDA established a dedicated DDA Waivers - Amendment #1 2019Community Pathways Waiver webpage and posted information about the program's goals, draft waiver amendment application, and the public webinar presentation. The website is located at: https://dda.health.maryland.gov/Pages/DDA Waivers-Amendment 2019.aspx https://dda.health.maryland.gov/Pages/Community-Pathways_Waiver_Renewal_2018.aspx

Webinar Amendment Overview

The DDA will-conducted held a two DDA Amendments Overview Wwebinars day symposium on February 2, 2019 from 1 p.m. to 2 p.m. and February 4, 2019 from 10 a.m. to 11 a.m. May 15 and 16, 2017 to share an overview of the proposed amendment revised service proposals for the Community Pathways Waiver renewal. The same presentation willwas be provided at both times. The DDA will-also heeld a meeting on February 11, 2019 from 6:30 to 8:30 p.m. to hear During the symposium, participants shared suggestions, recommendations, concerns, and provide an opportunity for also asked questions.

Formal Public Comment Period

Stakeholders havehad the opportunity to provide additional input on the proposed amendment via the formal public input process that willwas be from February 2, 2019 through March 3, 2019.

State:	
Effective Date	

The DDA conducted information sessions on September 18th, 19th, 20th, or 27th, 2017, where information about the service descriptions was shared. During these events, the DDA answered questions related to changes made.

The Maryland Urban Indian Organization (UIO) for Tribal Consultation was notified on November 13, 2017 February 1, 2019 (insert date) of the posting of the Waiver application.

On November 13, 2017, the DDA sent out information to all stakeholders and partners regarding the Waiver application posting and request for public comment on November 13, 2017. The website is located at:

https://dda.health.maryland.gov/Pages/Community_Pathways_Waiver_Renewal_2018.aspx

From February 2, 2019 - March 3, 2019, stakeholders had the opportunity to provide input on the proposed amendment. Request for public input was also posted in the Maryland Register on (Issue Date: November 13, 2017 February 1, 2019), which is available electronically or in hard copies as well as in different languages and formats to ensure accessibility statewide at the local health departments, DDA Headquarter Office and DDA Regional Offices. The Public Comment Period was held from November 13, 2017 December 12, 2017.

The formal public comment period for Amendment #1 2019 proposal was held from February 2, 2019 - March 3, 2019. In total, 110 unduplicated individuals, families, providers, and advocacy agencies submitted input. Below is a summary of responses received during the public comment period and the Developmental Disabilities Administration's (DDA) responses. A complete listing of all responses can be found on the DDA website.

The DDA received a comment of appreciation and support of amendments intended to bring about consistency and clarity across the three waivers. Nine comments related to language changes in the Purpose of the HCBS Program section. Suggested language changes included: specifying input from innovative processes be required; requiring specific training for coordinators of community services (CCSs), caregivers, and staff; providing emergency funding; and using the words "employees", "employees and vendor staff" and "vendor staff" when appropriate were not accepted. The DDA explained the input process, current training requirements, the availability of emergency funding, and why "employee" was used. Accepted suggestions include clarifying CCSs' monitoring roles and responsibilities and services intent for increasing independence.

Three comments were received for Appx. A. Providers' suggestions to remove discharge language from nursing case management and delegation and comments regarding the age limit of respite providers were not accepted. The DDA explained that delegation may be needed after discharges, and lowering the required age limit of respite providers to 16; explaining that stakeholders requested the change. Accepted suggestion included rewording supported employment/day habilitation language related to transitioning to career exploration.

Two comments were received for Appx. B regarding reserved capacity and CCS monitoring. Slot categories were explained and the DDA agreed to consider provider capacity for TYs and Foster Kids. A CCS quarterly monitoring adjustment suggestion was accepted.

Twelve comments were received for Appx. C. A suggestion to include the title and form number of the Supportive Decision Making Agreement was not accepted as it is an agreement and not a standard form. A comment that provider applications not be required for providers of self-directed services, or individuals/businesses licensed in Maryland was not accepted. The DDA explained that applications are needed for providers where only budget authority is offered. The DDA provided clarification to comments regarding DDA approved/DDA certified vs licensed providers,

State:	
Effective Date	

and that a formal certification process is needed. The DDA explained that a formal provider approval process is in place for DDA providers to be certified or licensed. A comment that the Maryland Board of Nursing requirement of certification for unlicensed direct support providers is a hardship was received; the DDA explained this is Maryland law. Three comments regarding criminal background checks limiting community access were not accepted; DDA explained that criminal background checks are needed to protect waiver participants. The DDA did not accept suggestions to add a grandfather clause for participants who will no longer meet new language; that criteria for payments are removed; that service definitions are restrictive and overlapping; and State Plan policy language goes against waiver's purpose. The DDA explained that service definitions give participants choice and flexibility and that accessing State Plan policy language is required by Centers for Medicare and Medicaid Services (CMS).

The DDA received two comments for assistive technology and services. The DDA explained that DDA applications are not needed and that training requirements are required for assistive technology professionals who provide self-directed services.

Five comments were received regarding behavioral support services. One comment that behavior consultation service units be changed to 15 minutes were accepted. Two comments were affirmed, that only licensed professionals should oversee services. A comment stated that competency requirements are redundant and another recommended removing Functional Behavior Analysis and Antecedent Behavior Consequence language were not accepted. The DDA advised that competencies explain provider requirements for providing service and explained that Functional Behavior Analysis and Antecedent Behavior Consequence language would remain due to regulations.

Sixteen comments were received for career exploration. Suggestions to redefine, remove, or expand the time limit were received. The DDA clarified the time limit will not apply to those currently in service. The DDA received a suggestion to remove the Monday - Friday limit and clarified it is only for facility-based supports. Providers made comments related to competitive integrated employment, including creating an alternative that allows those who work but do not meet the definition. The DDA explained that assessing individual situations, as places may meet the community settings rule but not competitive integrated employment. The DDA did not accept a suggestion to remove the requirement for an employment goal from the service definition as the service is designed to create a path toward employment. Four comments were not accepted concerning CMS guidelines and excluding employment business and allow service flexibility; DDA clarified it is not excluding businesses but assessing situations individually using CMS guidance.

Fifteen comments were received for community development services. Advocates' recommendation that community development services should be available in the home was not accepted; participants can return home throughout the service for time-limited periods to address health and personal needs. Comments to include home-based employment and hobbies within the service were not accepted; employment supports can be offered through employment services. Comments to include educational programs and activities were not accepted, as access is included but does not cover associated costs. A comment that apprenticeships are excluded was not accepted as time limited volunteering, internships and apprenticeships are covered. A suggestion to remove the four person limit was not accepted. A provider commented the service implies that staff remain with someone the whole time they are volunteering, which encourages dependence. The DDA explained that billing should occur for direct support and is not needed for independent volunteering. A comment that definitions makes billing complex was not accepted; definitions allow options for participants. Billing guidance is forthcoming. A suggestion that billing needs to include transportation was received; DDA clarified when billable. The DDA did not accept

State:	
Effective Date	

language edits that self-directed community development Services can be used with standalone transportation service. A provider asked DDA to clarify that community development services and employment services can be used on weekends and that day habilitation is only available Monday – Friday; the DDA confirmed the availability of these services as noted.

Four comments were received for community living—enhanced supports. A suggestion to expand on the types of clinicians an agency must contract with or have on staff was accepted. A provider recommend to supplement housing costs. The DDA explained it is reviewing the room and board and corresponding rates. A recommendation to fund vehicle purchases was received; the DDA explained that transportation is not a part of community living—enhanced supports.

Three comments were received for community living—group homes. The DDA accepted a suggestion to include environmental supports. A provider suggested adding additional nursing funds for emergencies. The DDA explained that regional offices should be contacted in emergencies. A provider suggested removing discharge language related to nurse case management and delegation in community living—enhanced supports and community living—group homes. The DDA added language about health status change to current wording.

The DDA did not accept a recommendation that employment discovery and customization have employer and budget authority under self-direction; employment discovery and customization having budget authority ensures qualified providers.

Five comments were received for employment services. The DDA accepted a suggestion to clarify employment services overlap with residential services; guidance will be shared. The DDA explained 90 hours can be authorized up to twice a year to clarify job development limitations comment. A suggestion regarding billing concerns stated that a more flexible method of job development is needed and that separation of job development and support will not improve employment options. The DDA clarified Employment Services is designed to improve flexibility and rates will be considered with the rate study.

The DDA accepted a suggestion to include environmental assessments and modifications for people receiving community living—group homes.

Nine comments were received for individual and family directed goods and services. Comments suggested offering individual and family goods and services under the traditional service delivery model; to remove or increase the cap; to cover service animals and smartphones; and to cover classes and activities in the community were not accepted. The DDA will consider expanding the list of covered items in the future. Options are available through other Medicaid programs and other waiver services for service animals, smartphones, and community activities (classes). Comment suggested that service be flexible to support access to qualified providers. The DDA explained that providers and services are broad for inclusion of commercial businesses, community organizations, and licensed professionals.

A suggestion that the provider is responsible for sending a copy of the agreement for live-in caregiver was accepted. A suggestion was received to support self-directing participants with live-in unpaid caregivers; this is currently the case.

Two comments were received for medical day care. The DDA explained nursing services are currently covered in this service and the OLTSS will consider behavioral supports in medical day care.

State:	
Effective Date	

One comment suggested allowing nurse case management and delegation during employment discovery and customization was not accepted as this service is time limited.

Two comments were received for participant education, training and advocacy supports. As transportation is included in participant education, training and advocacy supports; and standalone transportation service can be used, the suggestion to increase a cap was not accepted. The DDA explained that educational opportunities available outside of waiver services can also be explored, and did not accept a suggestion to increase the 10 hours/year limit.

The DDA received 22 comments for personal supports. One comment that personal supports is limiting and goes against person-centered planning. The DDA explained that personal supports is designed to complement waiver and other community services so participants receive needed supports. A suggestion to add language that emphasizes support was accepted. A suggestion to include travel time in the rate was received. The DDA explained the rate includes transportation but travel to and from the service cannot be billed. The DDA accepted a suggestion that service be offered anytime Meaningful Day supports are not in session. There was a comment of disagreement with overnight supports being removed from service. The DDA explained that personal supports is designed to be habilitative and differs from personal care offered in the State plan. A suggestion that assistive technology be used to support overnight coverage will not work. The DDA explained that medical need for support can be received through the State plan and concerns should be shared with the regional office director for further assistance. Advocates expressed concerns about weekday time restrictions; the DDA stated that personal supports is not limited to weekdays. The DDA did not accept suggestions to redefine service to include companion and homemaker supports or cover service gaps between DDA and State plan. The DDA did not accept suggestions to exclude self-directing participants from 82 hour limit or increase the limit, as more hours can be authorized if there is an assessed need. Recommendation to support those currently receiving over 82 hours of supports was submitted. The DDA explained hours are authorized based on need. The DDA accepted the suggestion to include maintenance of skills and health management in the definition. The DDA accepted the suggestion to include language around the cost-effectiveness and appropriateness of needs.

Advocates suggested that remote support services be offered under self-direction. The DDA confirmed this is the case.

There were eight comments for respite. Advocates suggested allowing overnight supports in the home be covered under respite; the DDA confirmed it this is covered. The DDA accepted comments suggesting raising the funding cap and separate camp dollars from overnight respite hours. The respite limitation was increased to 720 hours in addition to camp. A comment suggested to include specialized respite and behavioral respite homes was not accepted; services are provided under administrative contracts. The DDA did not accept a comment to suggest offering behavioral supports during respite, as it is time limited and behavior support services is offered through other services. The DDA did not accept a comment suggesting removal of training requirements for contractors or family staff. DDA must comply with the Maryland Board of Nursing requirements.

Twelve comments were received for shared living. The DDA accepted suggestions about adding "individual" as an arrangement and service provider. Comments suggesting allowance of family members, other than parents, the ability to provide this services and removing the criteria that states the participant not already have a family, allowance for this service be rendered in a family member's home were not accepted. The DDA explained that this service is designed to support those without family support. The DDA did not accept suggestions that service have budget authority as it is not offered under self-direction. The DDA accepted a suggestion that service

State:	
Effective Date	

meet habilitative needs. Comments suggesting for continuing to support or grandfather host home providers that do not possess a GED certificate or high school diploma and historical homes that serve 3 clients, while the goal is to serve no more than 2, were accepted for current authorized homes. The DDA accepted a suggesting for removing the requirement for a shared living specialist; as assigning a specific specialist to the caregiver could push the relationship between the agency and contractor towards a supervisory or employee/employer relationship.

Fourteen comments were received for support broker. One suggestion that language should encourage use of support brokers; the DDA explained it supports self-direction and support broker use, but it is optional. Suggestions to change language regarding support broker roles and responsibilities to include day to day management of the plan, developing and implementing strategies, signing timesheets, establishing budgets, assisting with budget and employer authority, or hiring/firing workers were not accepted. The DDA explained support broker is designed to support self-direction participants by giving employer related information and advice so the participant can make informed decisions about managing services. Advocates suggested adding that support broker be the primary advocate for participants; the DDA did not accept, as the participant has the freedom to choose their primary advocate. Recommendation that support broker differs from case management in intensity, frequency and level of detail was not accepted. The DDA stated each service is different and this could apply to all services. The DDA did not accept a suggestion to remove language regarding participants' significant health and medical changes, as wording relates to additional supports being authorized above the limit. Advocates expressed concerns that 4 hour limit not being person—centered; the DDA explained the State is required to outline scope, nature, and limits of each service. The DDA accepted a suggestion to remove provider qualifications numbers 9 through 13.

A comment suggested including businesses in a participant's home in supported employment. The DDA stated that it will develop guidance related to self-employment.

A recommendation that supported living has employer and budget authority under self-direction. The DDA explained that budget authority is offered.

Three comments were received for transition services. Comments involved supporting people moving into residential services, from their family's home or shelter, and from the community into services with a community residential provider. The DDA explained definition was developed per CMS guidance.

Thirteen comments were received for transportation. Advocate comments suggested transportation be a standalone service for those in self-direction whether or not they are receiving support from another service at that time; the DDA did not accept, explaining the service is designed to support independent travel and transportation is part of Meaningful Day and residential services. Comments suggesting removal of the words "independently" and "agreement" from the definition were not accepted; when used, "independently" indicates the person accesses their community without staff supports, and "agreement" clarifies specific details related to mileage reimbursement. Comments regarding family members and individual legally responsible being paid for service were not accepted. The DDA explained "legally responsible individuals" is used by CMS, and relatives can be reimbursed. One comment that reimbursement criteria limits community access. The DDA explained service is designed for independent travel in community. Providers recommendation to restore vehicle purchases to service was not accepted, as this service is designed for independent travel; transportation is a part of meaningful day and residential services. A comment that individuals providing service under self-direction do not need a DDA application, the DDA confirmed this is the case.

State:	
Effective Date	

Four comments were received for Appx. D. The DDA accepted a suggestion to revise language regarding CCSs ensuring health and safety or service delivery to reflect their monitoring role. Recommendation to clarify how a person-centered plan (PCP) is developed including assessment information; the DDA clarified that the CCS is responsible for gathering information about requested services with participant/representative input, remaining members of the team may also provide information. One comment received asked DDA to describe "back-up" plan in detail was not accepted; the DDA explained information related to back-up plans is found in Appx. D-1e.

Forty-two comments were received for Appx. E. Comments included the separation of home and community-based services are impractical and not wanted; self-direction service options were reduced; and self-direction is being discouraged due to the term "traditional services." The DDA explained that service changes are based on stakeholder input; offer new opportunities; and service options have increased including support brokers services The DDA explained there are two service delivery models offered and that CCSs support participants regardless of service delivery model. Recommendation to use "participant" or "participant/designated representative" throughout document, concerns about self-direction criteria and suggestions to remove designated representative language were received. The DDA explained CMS uses "participant" related to individuals enrolled; designated representative is not required. The DDA deleted criteria and added wording that participant or their designated representative being capable of making decisions. Suggestion to restore the federal Independence Plus designation was not accepted; CMS stated to remove. A comment stating the financial management service (FMS) request for proposal (RFP) references the wrong start date was clarified by the DDA; the RFP is expected to be released summer of 2019. Comment that FMS should be a waiver service instead of administrative was not accepted, as FMS has traditionally been an administrative service. Concerns that more than one FMS is needed because one FMS may be a monopoly were considered. The DDA clarified it has a joint RFP request with MDH partners to acquire a high quality FMS. Suggestions to revise FMS roles were not accepted as the DDA explained this service is designed to assist with employer and budget authority. Recommendation to change sentence about supports and protections were not accepted as the DDA explained it is a part of the amendment application template. A comment suggesting offering employer authority for employment discovery and customization, employment services, supported living, and to add shared living as a service with budget authority was not accepted as professional service standards and requirements have been established. The DDA accepted a suggestion to add the new selfdirection manual's release date. The DDA did not accept a comment related to the Self-Direction Service Agreement as it is part of the template. The DDA accepted comments that self-direction budgets align with traditional budgets. Advocates suggested allowing participants to modify services within their plan without DDA approval; the DDA did not accept as to support payment of qualified providers a modification is needed in the PCP. This is not an available option in the amendment application. All modification to the budget must be preceded by a change in the service plan. Concerns about the support broker service being optional and comments regarding the support broker role and responsibilities were not accepted. The DDA explained support broker service is designed to provide specific information, coaching, mentoring, and assistance, as necessary and appropriate, if chosen by the participant. Comment suggesting that self-direction be an option for those in residential with less than 4 others was not accepted; as a self-direction option is available for those who live with others under a lease. Concerns that excessive requirements on licensed/certified professionals and benefit limitations for support staff will limit access to qualified providers. The DDA explained that requirements ensure health and safety. Comment concerned that staff benefits are limited was clarified by the DDA; benefits are allowed under certain services based on the participant's choice.

Two comments were received for Appx. F. A comment that new language lists five appeal topics that do not match up with the three topics mentioned in the introductory paragraph of Appendix F-

State:	
Effective Date	

1. The second comment sought clarification if appeal options were expanded, decreased or remained the same. The DDA clarified that language indicates how an individual and family are informed of their opportunity to request a Medicaid Fair Hearing and that appeal types remained the same.

The DDA accepted a comment for Appx. G to keep the word "approved" from standing committee role.

Sixteen comments were received for other matters. The DDA explained that services are designed to provide choice and flexibility in response to a comment that amendments are not flexible enough to address participants' needs. The DDA explained its goal is to support participants to live in the least restrictive environment with family ties, if that is their choice in response to a comment for programs to help participants stay with their families. Parents suggested participants and parents/guardians are able to review the Supports Intensity Scale assessment (SIS) before submission. The DDA explained parents/guardians should work closely with the participant and assessor so all are informed of what is being submitted. The DDA stated it expects all providers to properly train their staff as outlined in COMAR in response to a comment that staff do not last long due to lack of training. A suggestion to use "participant" instead of "individual" throughout the waiver was not accepted as the DDA uses 'individual" to describe someone in the application processes and "participant" describes those in services. A comment suggesting covering activity costs for day habilitation, community development services, personal supports, and community living was not accepted, as Medicaid waiver funds do not cover activity costs. A provider suggested adding an acuity factor to rates. The DDA explained that an acuity factor is not used as rates are developed based on definition, staff qualifications, and level of need. A recommendation to consider a rate in brick for job development indirect and direct services; the DDA explained this will be explored in the future. Comments were made that overlapping services will lead to billing errors and flexibility and rounding rules are needed. The DDA explained billing guidance will be provided based on a provider technical group's suggestions. A comment was made that including transportation in rate compromises ability to retain qualified staff and access services. The DDA did not accept comments related to travel reimbursement for community development services and personal supports under self-direction, as travel is a part of Meaningful Day and residential rates. Transportation is also a standalone service for independent travel. A comment regarding needed support for recruiting/hiring staff and exploring personal and community interests was addressed. The DDA explained funds for recruitment are available through Individual and Family Directed Goods and Services and that Charting the LifeCourse™ tools and services are designed to assist with interests. The DDA stated the reimbursement rate includes staff wages and employee related expenses such as benefits in response to a comment regarding low wages and lack of benefits for direct support staff.

The official 30 day Public Comment Period was held from November 13, 2017-December 12, 2017. In total, DDA received 135 responses from families, providers, and advocacy agencies. Below is the summary of the specific recommendations from the public and responses:

The DDA received four comments regarding changes to the Purpose of the HCBS Program. Two comments were related to provider quality, compliance and effectiveness of services delivered to participants and one was related to the evaluation of capacity to self direct. The DDA accepted the comments and responded that providers will be assessed using performance measure standards, utilization reviews, surveys, and a Quality Improvement Organization. The comment to update. Attachment #2: Home and Community-Based Settings Waiver Transition Plan was not accepted. DDA responded that the State is required to include the details related to the Statewide Transition Plan (STP) for Compliance with Home and Community-Based Setting Rule on the plan that was initially approved from CMS.

State:	
Effective Date	

Two comments were received regarding Appendix A. The DDA clarified that "deemed status" is not needed for Community Residential Habilitation. The DDA did not accept a comment related to only DDA providers reporting issues of participant abuse, neglect, or exploitation.

Four comments were received regarding changes to Appendix B. The DDA accepted two comments related to level of care. The DDA received one comment that reserved capacity for Transitioning Youth was not high enough. DDA explained that additional capacity can be requested if needed.

The DDA received eight general comments about changes to Appendix C. Two comments were accepted related to flexibility around alternative resource documentation and self-direction staff criteria. One comment related to simplifying and combining services needed clarification. The DDA clarified that service description, scope, and standards language were enhanced to better clarify the purpose and provide participants the flexibility to receive multiple services throughout the day. The DDA did not accept comments regarding adding new services—"in lieu of day" and "self employment". The DDA explained that supports are available through the waiver to support participants' needs. Comments regarding language changes about transportation provisions, exhausting available and appropriate funding sources, and avoiding institutionalization were not accepted. The DDA explained that language is necessary for waiver submission.

A continuation of the summary of public comments and responses can be found in the Main Module Section B, entitled Additional Needed Information (Optional) section.

The following information is noted in the waiver application found in the Main Module Section B, entitled Additional Needed Information (Optional) section due to template constraints. It is noted here for ease of the reader.

The DDA received four comments regarding changes to Assistive Technology (AT) and Services. One comment was accepted. One comment related to the cap resulting AT requests that do not best suit the participant's needs. DDA explained that individuals and families are encouraged to have an AT assessment to determine the best AT device or item to meet their needs regardless of the cost. One comment to expand the service definition to include information and communication technologies (ICTs). DDA responded the description includes general types of technology support to address a need identified in the PCP and noted in the assistive technology assessment. One comment that certification requirements should not apply if basic assistance is being provided. The DDA explained that provider requirements were based on the recommendations of professionals in the Assistive Technology field, and will not change.

13 comments were received regarding changes to Behavioral Support Services (BSS). The DDA accepted comments related to settings the service can be provided, and non-employment requirements should be removed from BSS Vendor/contractor criteria. The DDA did not accept comments related to removing criminal background check requirements, explaining concern for participants' safety. The DDA provided clarity for a comment regarding no additional certifications for staff of self-direction participants. Participants self-directing services can hire their own staff who must meet minimum qualifications or use a DDA approved professional or agency or a DDA licensed agency. The DDA responded to a comment that providers must review the PCP and Support Intensity Scale (SIS), by explaining that providers have "complete necessary pre/in-service training based on the Person-Centered Plan". One comment to combine all Behavior services. The DDA clarified that all services were combined prior to the public comment period. The DDA responded to a comment related to the service occurring at the same time as Community Living Enhanced Supports, stating that staff that would be performing the

State:	
Effective Date	

same scope of behavioral support services within Community Living—Enhanced Supports. The DDA received a comment to clarify that Brief Support Implementation Services (BSIS) is performed by staff supplied by the Behavioral Support Vendor/Contractor or hired by Self-Directed Services (SDS) participant. The DDA explained that BSIS can only be provided by a DDA approved professional or DDA approved agency. The DDA did not accept comments that Behavioral Support Services provider requirements be expanded, stating that outlined requirements would remain. One comment related to regular SDS staff not attending Behavioral Principles and Strategies (BPS) training was not accepted. Federal requirements ensure the State establishes essential minimum provider qualifications and that requirements are met when the service is provided. The DDA did not accept a comment to add "unless otherwise approved by DDA." for BSIS, as it is a time-limited service to provide direct assistance and modeling to families, agency staff, and caregivers so they can independently implement the Behavior Plans.

The DDA received 14 comments related to Community Development Services. Two comments were accepted. The DDA responded to a comment about staff training around money and time management, explaining that topic areas were included in basic staff training requirements. One comment related to hour flexibility in the service funding plan. The DDA explained that there is flexibility for participants to choose among several Meaningful Day services during the week. One comment that self-directed services were not considered. The DDA responded that a mix of services can be provided on the same day for both service delivery models. The DDA did not accept comments to remove the four person limit, stating that the limit is based on national best practices related to community based non-work day services. One comment to add "meeting new people, making friends, and going to classes or activities for fun, fitness, or to learn." to the definition was not accepted. CDS provides the participant with development and maintenance of skills related to community membership through engagement in community-based activities with people without disabilities. One comment to allow for a funding to pay for the costs associated with staff attendance for outings. The DDA did not accept, stating that various community activities, resources, and entities that support, or do not require fees for staff to support individuals with disabilities. The DDA did not accept a comment to remove the requirement for activities to be with people without disabilities. CDS helps participants with the development and maintenance of skills related to community membership through engagement in community based activities with people without disabilities. One comment to remove an individualized schedule was not accepted. The DDA responded the schedule is needed to provide an estimate of what the individual will do and where/when the individual will spend his/her time when in this service. One comment to include volunteering in the service was not accepted, as it was indicated in the service definition. A comment to add "Supports within the participant's residence related to community participation, such as participating in social media, playing games, and selfemployment cottage industry pursuits." was not accepted, as this service is designed to facilitate community engagement. The DDA did not accept a comment to remove limit requirements.

The DDA received two comments regarding language changes to the Community Living-Group Home definition. One comment to add "physical or mental health and safety" was accepted. The DDA did not accept language regarding service criteria for this service, stating that current the proposed criteria gives clarity, transparency, and specificity.

Seven comments were received regarding Day Habilitation. Two comments were accepted. The DDA did not accept a comment to add "meeting new people, making friends, and going to classes or activities for fun, fitness, or to learn." to the definition. Day Habilitation services provide the participant with development and maintenance of skills related to activities of daily living, instrumental activities of daily living, and vocation and socialization. One comment to substitute part of the definition with that of the CMS 2015 Technical Guide. The DDA did not accept, stating the current definition gives clarity, transparency, and specificity. One comment to remove

State:	
Effective Date	

D from service definition. The DDA explained from July 1, 2018 through June 30, 2019, under the traditional service delivery model, a participant's PCP may include a mix of employment and day related waiver services provided on different days. One comment that employment supports should be added to the service. The DDA did not accept, stating per federal requirements, supported employment supports "do not include facility based, or other similar types of vocational services furnished in specialized facilities that are not a part of the general workplace.

The DDA received two comments regarding Employment Discovery and Customization. One comment was accepted. The DDA did not accept a comment related to the time limit of EDC, explaining that EDC activities should be completed within a six month period unless otherwise authorized by the DDA.

12 comments were received related to Employment Services. The DDA accepted a comment to change language about the fading plan of Ongoing Job Supports. The DDA provided clarification for three comments about the Ongoing Job Supports definition, home visits during Discovery, and include tasks needed to maintain a job. The DDA responded that Ongoing Job Supports was defined, face to face home visits help lay the groundwork for a successful Discovery process, and that maintenance tasks are included under job coaching. One comment demonstrated competencies associated with the outcomes instead of certificates was not accepted. Staffing requirements are designed to ensure that participants receive quality service/support in reaching their goals. The DDA did not accept a comment to allow for Follow Along Supports and stand alone Transportation to be used at the same time, as it is included in the rate for Employment Supports. A comment that only supervisory employment staff be required to obtain DDA approved certification was not accepted. Direct support professionals performing the discovery service need to be appropriately trained and qualified. The DDA did not accept a comment to remove Transportation and Behavioral Supports from the group that cannot be provided at the same time as Employment Supports, as the services are included in the service and rate. A comment that Employer authority needs to be checked for this service was not accepted. One comment to include self-employment in Ongoing Job Supports was not accepted. The DDA responded that Ongoing Job Supports are available to participants that are self-employed, however supports to manage the business like record keeping, billing, etc. are not included. A comment that DDA approved certification in employment should not apply to SDS. The DDA did not accept, stating that individuals performing this service need to be appropriately trained and qualified. A comment that Transportation should be a stand alone service for SDS participants was not accepted, as transportation is a cost component of this service.

The DDA received one Environmental Assessment comment. The comment to use Minnesota's criteria for providers was not accepted.

The DDA did not accept the two comments related to Environmental Modifications. One comment that home modifications providers do not have to become enrolled waiver providers. The DDA explained that DDA approved professional requirements include to be a licensed home contractor or Division of Rehabilitation Services (DORS) approved vendor. DDA Organized Health Care Delivery System providers can employ or contract with licensed home contractor or Division of Rehabilitation Services (DORS) approved vendor. A comment that family members and relatives should be allowed to provide the service. The DDA responded that relatives and legal guardians are not options to eliminate conflict of interest and ensure that participants health and safety needs are met.

11 comments were received regarding Individual and Family Directed Goods and Services. The DDA did not accept any comments related to the service cap. The DDA explained that the cap was increased to \$5,500. IFDGS is an option in which participants can use their individual budget

State:	
Effective Date	

for "permissible purchases" to the extent that expenditures would otherwise be made for the human assistance. One of the federal criteria for IDFGS are able to be accommodated within the participant's budget without compromising the participant's health or safety. A comment to exercise and personal training to allowed categories. The DDA did not accept, as fitness memberships and fitness items purchased at most retail stores are covered through this service. Participants can consider using their personal funds to acquire a professional health trainer/coach or participate in classes and activities. One comment to cooking/meal preparation, computer skills, performing and creative arts. The DDA did not accept; these activities can be supported in Personal Supports and Meaningful Day services. One comment to add post-secondary classes was not accepted, as tuition or educational services are not covered. A comment to allow Therapeutic Services was not accepted. DDA responded that medically necessary therapies recommended by professional clinicians are covered under Medicaid. Therapeutic swimming and therapeutic horseback riding are allowable services. A comment to include fees associated with telecommunications, internet fees, cell and landline, telephone purchase and services. The DDA responded that participants can consider using their personal funds to acquire these services. Comments to include staff expenses to accompany an individual on recreational activities or vacation. The DDA did not accept, stating as per federal instructions, services that are diversional/recreational in nature fall outside the scope of §1915(c) of the Act. There are various community activities, resources, and entities that support or do not require fees for staff to support individuals with disabilities. Comments to include staff bonuses and housing subsidies were not accepted, as the Waiver does not support staff bonuses. 42 CFR §441.310(a)(2) prohibits making Medicaid payments for room and board except when the participant is receiving respite outside his/her private residence in a facility approved by the State or under Live in Caregiver Supports. A comment that a request should not be linked to an assessed need was not accepted.

Comments were received related to how caregiver rent was calculated for Live In Caregiver Supports. The DDA received input from the Maryland Department of Disabilities and consultants related to the method used for calculating caregiver rent. The DDA has established a Housing workgroup and will refer these comments to them for consideration.

The DDA received three comments regarding Nursing Services. The DDA accepted a comment to remove the relative, legal guardian or legally responsible person restriction—from being paid for Nurse Case Management and Delegation Services. Relatives can provide the service if they meet the qualifications and authorized by DDA due to the unique needs of the participant and skills of the relative. A comment that nurses consider the participant's individual assessment, PCP, goals, preferences and ability to understand the risks and benefits of health services, and respect their informed choices. The DDA clarified all services offered are designed to respect the participant's informed choice and ensure that participants needs and goals are met, as outlined in the PCP. A comment to combine all nursing services into one was not accepted. The DDA responded that each nursing service is distinct to ensure that the needs of waiver participants are being appropriately addressed.

The DDA received one comment to include lodging and meals as part of Participant Education, Training, and Advocacy Supports. It was not accepted, as CMS denied the request to cover lodging and meals in the Community Supports Waiver.

12 comments were received regarding Personal Supports. The DDA accepted three comments. One comment to add banking and maintaining personal room or living space received clarification. The DDA explained that current language includes these activities. One comment to ensure adequate funding for transportation was referred to the Rate Study conducted by JVGA. One comment that a Retainer Fee was not included was not accepted. The DDA responded that participant self-directed services have the option to provide benefits such as leave for these

State:	
Effective Date	

situations. The DDA did not accept a comment to Personal Supports and Supported Living should be combined. The DDA responded that Personal Supports is designed to assists participants in becoming more independent through developing in home skills and community integration and engagement skills. Personal Supports is limited to up to 82 hours per week and can be provided in the participant's home or their family's home. Supported Living allows for similar supports for up to 24 hours per day in their own home or apartment. A comment to allow for funding to pay for the costs associated with staff attendance. The DDA did not accept, stating there are various community activities, resources, and entities that support or do not require fees for staff to support individuals with disabilities. One comment that Service Requirement H related to transportation being included in the cost should apply only to the traditional service delivery model. The DDA did not accept, as Transportation will be a cost component of this service. A comment to add "but are not limited to" to Service Definition D was not accepted, as CMS advised not to use this language. One comment to remove the requirement for services being available before and after Meaningful Day services. The DDA did not accept, stating that the language used gives clarity, transparency, and specificity. One comment to add "For individuals not self-directing their services," to Personal Support services' limit to 82 hours per week was not accepted. The DDA responded the State may establish a dollar or other limit on a service and provide alternatives once the limit is reached. Supported Living services includes up to 24 hours of service as an alternative to meet needs.

The DDA received 11 comments regarding Remote Monitoring. Six comments related to changing the service title, checking self-directed, ensuring cost neutrality, redefining the provider, and changing language in the service definition. The DDA provided clarity for a comment about increasing the service cap, stating the limit will be removed and policy developed to reflect services should be implemented in a cost neutral manner. A comment to ensure service will not infringe on a person's civil rights. The DDA responded that each individual living in the residence, his or her legal guardian(s), and teams must be made aware of both the benefits and risks. The service design and implementation must ensure the need for independence and privacy of the participant who receives services in his/her own home. The DDA did not accept a comment to include learning and skills training through live two way video conferencing, stating the service provides oversight and monitoring within the participant's home through an off-site electronic support system in order to reduce or replace the amount of staffing a participant needs. A comment to include remote/tele supports and allow the service to provided in other public and private community-based settings was not accepted.

The DDA received three comments regarding Respite Care Services. One comment that neighbors and friends should be treated like any other employee. The DDA responded the intent of the language was for the PCP to reflect the use of a neighbor or friends was based on the meeting the safeguard criteria. A comment that respite provided in a private home must be licensed not be required for self-directing participants. The DDA clarified that Respite can be provided in a variety of settings including the participant's home, the home of a relative, friend or neighbor, and a DDA licensed group home. The DDA did not accept a comment to add "For individuals not self-directing their services," to "Services can be provided at an hourly rate for 8 hours or less; or at the day rate for over 8 hours, daily." The DDA stated guidance regarding reasonable and customary hourly and daily rates for SDS will be provided.

Seven comments were received regarding Shared Living. One comment to allow respite for participants in this service was accepted. One comment that ongoing supports should not be needed by an agency other than the general oversight provided by the team. The DDA responded that current ongoing supports are being transitioned to stand alone services. A comment that Host Family should also have a one person environment/home was accepted. Comments that family members serve as shared living staff was not accepted. The DDA responded that this service is

State:	
Effective Date	

provided by a DDA approved provider and for participants who do not have family or relative supports. A comment that this service be self-directed was not accepted. The DDA did not accept a comment that Host Home should not be required to be located through an agency. The DDA responded the service is provided by a DDA approved provider and includes matching of the participant and the host home based on the participant's preferences. Identification of the host home can come from various sources including homes identified by the participant.

The DDA received three comments regarding Supported Employment. A comment to add self-employment was accepted. A comment to include DDA's commitment to Supported Employment for those needing ongoing staffing support. The DDA explained that Ongoing Supports is included in the definition. The DDA did not accept a comment that Transportation should be a stand alone service for SDS, as Transportation is a cost component of this service. Participants' self-directing services can indicate mileage reimbursement for their staff under benefits.

The DDA did not accept one comment that Transition services could be used to move to your own home from the participant's family home. The DDA explained this service's purpose is to support people transitioning from an institution or most restrictive environment to their own home.

Seven comments were received regarding Transportation. The DDA accepted a comment about training and documentation requirements for providers.

Comments regarding intent of the service and to increase the funding limit. The DDA explained that participants can use their personal funds to pay for transportation expenses. A comment that Service Requirement G should apply to self-direction services was not accepted, as Transportation is a cost component of this service. Participants' self-directing service can indicate mileage reimbursement for their staff under benefits. A comment to clarify this service is for any transportation need including out of state travel, identified in the plan. The DDA did not accept, stating Transportation services are designed specifically to improve the participant's ability to access community activities within their own community. Transportation services are not available at the same time as the direct provision of Career Exploration, Community Development Services, Community Living Enhanced Supports, Community Living Group Homes, Day Habilitation, Employment Discovery and Customization, Employment Services (with the exception of follow along supports), Medical Day Care, Personal Supports (beginning July 1, 2019), Respite Care, Shared Living, Supported Employment, or Supported Living services as it is a component of these services. A comment to add legal guardian and legally responsible person as an allowable provider under self-direction was not accepted.

The DDA received a comment that a prescription for vehicle modifications should not apply to modifications related to passenger needs. It was not accepted, as the prescription is specific to the year/make/model of the vehicle modification and must be completed by a qualified specialist.

Four comments were received regarding relatives performing services. The DDA accepted two comments related to stakeholder input. One comment to define legally responsible persons criteria for minor children and adults. The DDA explained that similar language is in the waiver application. One comment that relatives who meet provider requirements should be able to provide that waiver service. The DDA did not accept this comment, stating that provider qualifications ensure appropriately certified, trained, and qualified providers deliver services. To eliminate conflict of interest and ensure that participants' health and safety needs are met, relatives and legal guardians are not an option for these services.

State:	
Effective Date	

The DDA received four comments regarding provider requirements. Comments related to "one size fits all" provider requirements and using the correct name for Maryland's taxation department were accepted. One comment to clarify an individual "professional" under the Provider Qualification sections, and the difference in the standards for individual professionals vs. agency staff. The DDA responded a willing provider is an individual or entity that executes a Medicaid provider agreement and accepts Medicaid's payment for services rendered as payment in full. Individual professionals may choose to independently provide waiver services and must meet applicable qualification requirements. Agencies that either hire or sub-contract staff also have to meet the same specific qualification requirements. Participants' self-directing services can hire their own staff who must meet minimum qualifications or use a DDA-approved professional or agency, or a DDA licensed agency. The DDA did not accept a comment that only the participant and his/her team should determine employee qualifications. As per federal requirements, Medicaid must establish the essential minimum qualifications for providers and ensure those requirements are met when the service is provided.

Six comments were received regarding Appendix D. The DDA accepted a comment to require communication back to the participant and support broker related to Coordinators of Community Services (CCS) receipt, submission, and DDA approval of a budget modification. A comment to add "especially" to t: "In addition to objective assessments, the family is a key source of information on risk assessment and mitigation, especially when supporting participants under the age of 21." was accepted. A comment that "Provision of Information..." paragraph should address self-direction, available natural supports, free services and other services 'beyond' the DDA realm. The DDA responded all qualified providers must meet specific requirements prior to service delivery. A comment the current provider standard of completing all training within 90 days and First Aid/CPR certifications continue. The DDA clarified that a policy related to required basic core staff trainings required prior to service delivery and trainings will be issued. One comment to add "The CCS will also inform the participant, his/her authorized representative, his/her family members, and other identified planning team members about the option to select a Support Broker to help in the planning process and provides the team with a list of DDA certified supports brokers." The DDA explained this section of the waiver is specific to informing participants about informed providers. A comment that there be consideration for natural disaster and national emergency planning in the risk assessment section. The DDA responded that supporting families' tools will assess other areas of risk for the individual in addition to medical concerns such as natural disaster and national emergency planning. A comment to change the language to "Conduct required criminal background checks, Medicaid exclusion list...". under multiple services was not accepted. Criminal background checks must be conducted and submitted to DDA with the provider application. The DDA did not accept a comment that existing staff not be required to go through new training. To ensure direct care professional are appropriately trained on best practices and standards, all staff will need to complete the new DDA required training by July 1, 2019 or sooner. After July 1, 2019, all new hires must complete the DDA required training prior to service delivery.

32 comments regarding Appendix E were received. The DDA accepted comments related to defining family and family serving as staff, using a mix of traditional and self-direction service delivery models, increasing service management flexibility for self-directed services, Support broker choice, add language about PCP development and implementation, self-direction manual, and CCS training. Comments that an adult must have a legally responsible person to speak for them, to remove requirement for non-legal representative, guardian, or authorized representative to participate in self-direction, and remove any reference "that the participant... is capable of making informed decisions regarding how services are provided". The DDA explained adult participants can independently self-direct their services or choose a "designated representative." The participant, legal guardian, or his/her designated representative must be capable of making

State:	
Effective Date	

informed decisions to participate under this service delivery model. A comment to address how the Participant Directed Budget is established. The DDA responded a participant's self-directed budget is determined through a person-centered planning process that offers budget flexibility while ensuring that the amount of the self-directed budget is not greater than the cost of traditional services for that individual. Comments the participant be able to manage adjustments in the plan and/or budgets without DDA approval. The DDA explained that a modification is needed in the PCP to support provider payment. For current services, a budget modification form will be used for plan changes. Not all changes need to be approved by the DDA; however they do need to be included in the PCP to authorize payment. A comment to add "less an appropriate, personcentered determined administrative fee to cover the costs of the Fiscal Management Services (FMS) and Support Broker Services." to Appendix E 2 b.ii.3. The DDA explained that when the CCS and Team develop a PCP to meet assessed needs and service requests they are expressed in service units and cost reimbursement services. The self-directed budget dollar value will be assigned to the plan using payment rates from the traditional service delivery system. Comment to change language in Appendix E 1 i (e) to read: "The participant and his/her support team, which includes the CCS" for entities responsible for assessing performance. The DDA clarified the participant, legal guardian, designated representatives, and support team should continually assess performance, progress toward goals, and changing needs. This section is specific to the State's strategy and designation of an entity to assess performance of Support Broker Service. CCS are required to conduct quarterly monitoring of the provision of all waiver services. Comments to have a standard for "Initial Planning and Start up Activities" and Support Broker services. The DDA responded Support Broker services will be provided as an administrative service and no longer included as a stand alone waiver service. A comment that more than one FMS should be selected. The Department is in the process of issuing a Request for Proposal (RFP) for FMS services and will follow the procurement processes to identify the best qualified vendors. Comment related to Participant Exercise of Budget Flexibility, the waiver should make clear that modifications in the budget "amount" and not "shifting" of funds within the budget worksheet. The DDA responded the application template for this item provides two options to check and does not support the entry of additional language or details. One comment that CCS provide proof of sharing information about SDS with participants. The DDA explained that CCS must document individuals choice related to SDS on the Freedom and Choice and Level of Care (LOC) forms required with the waiver application and on the annual LOC recertification. The DDA did not accept a comment to expand Employer Authority to all waiver services. Comment to eliminate the prohibition family members working as direct-care staff when another family member is the authorized representative and allow a direct care staff member to also be an authorized representative with the restriction that someone else must sign the timesheet for participant employer. The DDA did not accept stating to prevent conflict of interest and ensure the participant's health and safety, relatives, legally responsible person and guardians will be able to provide specific services based on established criteria and safeguards. One comment to restore Support Broker role as a required member of the team with all the duties and responsibilities in the current waiver; to act as the agent for the participant and sign timesheets was not accepted. Support Broker services will be an option for participants using the self-directed service delivery model. Support Brokers can coach and mentor a participant, his/her legal guardian, or designated representative. A comment that (E1) language should be changed to "participant and authorized representative if applicable" not "or". The DDA did not accept, stating a participant or legal guardian may direct services or appoint a designated representative to direct on their behalf known. A comment to add URL or attach an official document to the waiver to represent the Life Course was not accepted, as the application does not support attaching documents and URL can change over time. The DDA did not accept a comment related to the make up of the participant's team. The participant or legal representative will determine the team member. A comment to add language about timelines of expenditure reports from the FMS to participant and Support Broker was not accepted. The DDA responded specific processes and timelines will be outlined in the

State:	
Effective Date	

FMS request for proposal and policies. A comment to add under Expenditure Safeguards, "There will also be a review to determine if Request for Budget Modification and Modified Service Funding Plan Request are being effectively and timely processed by the CCS to DDA for review and approval." The DDA did not accept, as the Request for Budget Modification and Modified Service Funding Plan Request will be phased out with the implementation of the Long Term Services and Supports IT system.

Four comments were received regarding Appendix F. The DDA accepted a comment that a grievance/complaint system should be established to provide participants a way to register and document grievances and complaints. Comment that SDS specific forms and training need to be developed related to incident reporting for participants who reside in their own home or theirfamily's home was accepted. A comment that an additional dispute resolution process be established that is not conditional upon first requesting a Medicaid Fair Hearing. The DDA clarified that a dispute resolution process called a Case Resolution Conference (CRC) is offered, where the participant, his/her family, and the DDA engage in discussions surrounding the DDA decision or action in question. A CRC is not required, but provides an opportunity for a participant in family, and representatives from the DDA to resolve a dispute before a participant's Medicaid Fair Hearing. A comment the Medicaid Fair Hearing letter should be mailed (or emailed) to any member of the planning team. The DDA explained the letter is mailed to the individuals, his/her family or his/her legal representative. The CCS and authorized representatives are also copied.

The DDA received two comments regarding Appendix I. The DDA accepted that comment that an adequate administrative rate be included for all services provided by or through a DDA licensed provider. The DDA did not accept the comment that under the traditional service model, there should be a process whereby participants, or their representatives, are provided a statement of services and payments. Current data systems do not support this type of report. The DDA will explore options under the Long Term Services and Supports information technology system.

Note: All rate study questions were referred to the Rate Study Consultant.

- J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date as provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons. The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 August 8, 2003). Appendix B describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the State's request for a waiver under \$1915(c) of the Social Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are *readily* available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments.

Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Attachment #1: Transition Plan

Che	eck the box next to any of the following changes from the current approved waiver. Check all boxes that
app	oly.
	Replacing an approved waiver with this waiver.
	Combining waivers.
	Splitting one waiver into two waivers.
	Eliminating a service.
	Adding or decreasing an individual cost limit pertaining to eligibility.
~	Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
	Reducing the unduplicated count of participants (Factor C).
~	Adding new, or decreasing, a limitation on the number of participants served at any point in time.
	Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
	Making any changes that could result in reduced services to participants.

Attachment #1: Transition Plan

Specify the transition plan for the waiver:

The Community Pathway amendment include various program related adjustment including the alignment of services scope, requirements, limitations, qualifications, and effective date for the three home and community-based service waivers programs that support individuals with developmental disabilities which includes the Family Supports Waiver, Community Supports Waiver, and the Community Pathways Waiver. It includes adjustment to the previously submitted service transition plan to support additional time for annual person-centered service exploration, planning, and service

State:	
Effective Date	

implementation. Coordinators of Community Services (CCS) will continue to share information with participants and families about new service opportunities and changes to existing services during their annual person-centered planning process and when new needs arise. It also adjusts some of the new or revised service implementation to provide additional time for rate setting and development of critical operational and billing functionality. Payment systems will transition to Maryland's Long Term Services and Supports (LTSSMaryland MDLTSS) system on July 1, 2020.

SERVICE ENHANCEMENTS AND TRANSITIONS - MEANINGFUL DAY SERVICES

Meaningful Day services include: Employment Services, Supported Employment, Employment Discovery and Customization, Career Exploration, Community Development Services, and Day Habilitation. A participant's Person-Centered Plan may include a mix of Meaningful Day services as provided on different days. Beginning July 2020, these services will be provided on an hourly basis providing new opportunities and flexibility for participants to receive various Meaningful Day services to meet their individualized goals on the same day.

Service changes will result in increased flexibility and opportunities for participants to receive more support hours of Meaningful Day services with the transition of service from a daily rate to an hourly rate. The rates will remain the same until new rates are finalized through the rate study.

Participants, family members, and Coordinators of Community Services (CCS) have been given guidance since July of 2018 to use their annual person-centered planning process to identify the appropriate service alignment related to their employment goals. This efforts has been through webinars DDA's Employment First Newsletter, and regional provider meetings.

Beginning July 1, 2019, the Person-Centered Plan (PCP) will include a new detail service authorization section which includes the new employment services that will become available July 1, 2020. Participants receiving supported employment will be able to request job development, on-going, and/or follow along supports under the new employment services. Participants interested in employment discovery and customization will be able to request the discovery service under the new employment services. Participant's interested in self-employment or co-worker supports will also be able to request these services under the new employment service. Therefore, all supported employment and employment discovery and customization services will end on June 30, 2020 and the new corresponding services (i.e. job development, on-going, and discovery) will begin on July 1, 2020 based on the PCP processes.

Supported Employment

- 1. Supported Employment services will end on June 30, 2020 and transition to the new Employment Services.
- 2. Employment Services include discovery, job development, on-going job supports, follow along supports, self-employment development supports, and co-worker employment supports. Employment Services are based on Communities of Practice including new employment certifications requirements for staff qualification and new rates and payment reimbursement methodology based on the service scope and rate study including hourly, monthly, and milestone payments. This service will begin July 1, 2020. New service units (i.e. daily to hourly) and rates will be implemented on July 1, 2020.

State:	
Effective Date	

3. Participants previously receiving facility based, or small group, and large group supports under Supported Employment or Day services will transition to Career Exploration services by creating an employment goal within their Person-Centered Plan during their annual planning process that outlines how they will transition to community integrated employment (such as participating in discovery and job development).

Career Exploration will transition from a daily rate to an hourly rate on July 1, 2020. New service units (i.e. daily to hourly) and rates will be implemented on July 1, 2020.

Employment Discovery and Customization will end on June 30, 2020 and transition to the new Employment Services that includes discovery, job development, on-going job supports, follow along supports, self-employment development supports, and co-worker employment supports.

Community Learning Services new service units (i.e. daily to hourly) and rates will be implemented on July 1, 2020.

Day Habilitation new service units (i.e. daily to hourly) and rates will be implemented on July 1, 2020.

SERVICE ENHANCEMENTS AND TRANSITIONS - RESIDENTIAL SERVICES

Shared Living services have been enhanced to support participants with increase needs.

Community Living- Group Home new service rates will be implemented July 1, 2020.

Community Living-Enhanced Supports new service will be implemented on July 1, 2020.

Supported Living is a new service that provides participants with a variety of individualized services that support living independently in the community beginning July 2019.

SERVICE ENHANCEMENTS AND TRANSITIONS – SUPPORT SERVICES

Behavioral Support Services changes include:

Provider qualifications and staff requirements were enhanced. Current providers will have up to twelve months to meet the new requirements. Qualified clinicians who complete the behavioral assessment and consultation must have:

- 1. A minimum of one year of clinical experience under the supervision of a licensed Health

 Occupations professional with training and experience in functional analysis and tiered behavior support plans with the I/DD population;
- 2. A minimum of one-year clinical experience working with individuals with co-occurring mental health or neurocognitive disorders; and
- 3. Competencies in areas related to:
- (a) Analysis of verbal behavior to improve socially significant behavior;
- (b) Behavior reduction/elimination strategies that promote least restrictive approved alternatives, including positive reinforcement/schedules of reinforcement;
- (c) Data collection, tracking and reporting;
- (d) Demonstrated expertise with populations being served;

State:	
Effective Date	

COMMUNITY PATHWAYS WAIVER - Main and Appendix A Amendment #1 Page 37 of 74

- (e) Ethical considerations related to behavioral services;
- (f) Functional analysis and functional assessment and development of functional alternative behaviors and generalization and maintenance of behavior change;
- (g) Measurement of behavior and interpretation of data, including ABC (antecedent-behavior-consequence) analysis including antecedent interventions;
- (h) Identifying desired outcomes;
- (i) Selecting intervention strategies to achieve desired outcomes;
- (i) Staff/caregiver training;
- (k) Support plan monitors and revisions; and
- (1) Self-management.

Nurse Case Management and Delegation Services are included in the Community Living – Group Home, Community Living -Enhanced Supports, Supported Living, and Shared Living services. If additional training supports are needed because of a change in condition after discharge from a hospital or skilled nursing facility, the request is reviewed by DDA's regional office and additional standalone Nurse Case Management and Delegation Service support service hours can be authorized.

Personal Supports changes include:

- 1. Transportation cost associated with the provision of services will be covered within the new rate effective July 2020.
- 2. Personal Support Services rate will remain the same until new rates are finalized through the rate study. New rates will be implemented on July 1, 2020.

Respite Care Services changes include:

- 1. A daily rate will be used for licensed sites and hourly rate for in/out of home services.
- 2. The service limit has been increased to include a daily/hourly limit up to 360720 hours/year plus up to \$7,248 toward camps.
- 3. Participants authorized above the renewal service limit prior to July 1, 2018 can continue to receive their previously authorized service level until their annual person-centered planning meeting effective date. This will support additional time for person-centered service exploration, planning, and service implementation. Participants seeking habilitation supports as an alternative to the basic break from the daily routine can seek additional Meaningful Day and Personal Support services.
- 4. Adjustment to staff qualifications include removing the GED or High School Diplomas requirement and adjusting the age requirements to 16 years.

SELF DIRECTION

Support Broker services will be an optional waiver service.

The Community Pathway renewal application enhances services and supports for individuals and families; updates provider and staff qualification standards with national standards; reflects new rates and payment methods; and provides new opportunities for participants to work toward self-determination, independence, productivity, integration, and inclusion in all facets of community life across their lifespans.

The Community Pathways Waiver renewal includes (1) the introduction of new services; (2) revisions to service descriptions, requirements, limitations, and provider qualifications; (3) transition of some supports to another or new waiver services; (4) transition to new units, rates, and payment methodology

State:	
Effective Date	

(e.g. daily to hourly, monthly, and milestones); and (5) revisions to self-directed services covered under the employer and budget authorities as noted below. Some new services and changes to existing services will be available and in effect July 2018; some will transition during the first year; and others will be implemented July 2019.

The waiver includes the following new services: Employment Services; Career Exploration; Family and Peer Mentoring Services; Participant Education, Training, and Advocacy Supports; Housing Support Services; Supported Living; Remote Support Services; and three new Nursing Services.

Payment systems will transition to Maryland's Long Term Services and Supports (LTSS) system on July 1, 2019. New service units and rates will be implemented July 1, 2018 unless otherwise noted below.

Coordinators of Community Services (CCS) will share information with participants and families about new service opportunities and changes to existing services during their annual person-centered planning process, beginning July 1, 2018. The Health Risk Screening Tool (HRST), conducted annually during the person-centered planning process, will be used to identify potential impact to a participant's health and welfare through and after existing services transition. The HRST assesses the individual's health and safety needs, particularly with respect to the following areas: community safety, health and medical needs, sexuality and relationships, abuse, neglect, elopement, financial exploitation, behaviors, home environment, fire safety, personal care/daily living, mental health, police involvement, informed consent, and others as appropriate to the age and circumstance to the participant. Upon making a decision affecting a participant's services, the DDA informs the individual and his/her family or legal representative of the opportunity to request a Medicaid Fair Hearing by providing a written explanation of the right to appeal certain adverse decisions made by the DDA.

SERVICE ENHANCEMENTS AND TRANSITIONS - MEANINGFUL DAY SERVICES

Meaningful Day services include: Employment Services, Supported Employment, Employment Discovery and Customization, Career Exploration, Community Development Services, and Day Habilitation. A participant's Person Centered Plan may include a mix of Meaningful Day services as provided on different days for the first waiver year. Beginning July 2019, these services will be provided on an hourly basis providing new opportunities and flexibility for participants to receive various Meaningful Day services to meet their individualized goals on the same day. Participants will continue to have access to current professional services (e.g. nursing and behavioral supports) being provided until they transition during the first year to the specific stand alone services. Meaningful Day services with the exception of Supported Employment and Employment Services are limited to 40 hours per week. Participants also have access to various support services including Personal Supports, Assistive Technology and others to meet additional service needs as further noted in Appendix C.

Service changes will result in increased flexibility and opportunities for participants to receive more support hours of Meaningful Day services with the transition of service from a daily rate to an hourly rate. The rates will remain the same until new rates are finalized through the rate study.

Supported Employment

State:	
Effective Date	

- 1. Supported Employment services will end on June 30, 2019 and transition to the new Employment Services or Career Exploration Services.
- 2. Employment Services include discovery, job development, on-going job supports, follow along supports, self-employment development supports, and co-worker employment supports.

 Employment Services are based on Communities of Practice including new employment certifications requirements for staff qualification and new rates and payment reimbursement methodology based on the service scope and rate study including hourly, monthly, and milestone payments. This service will begin July 1, 2019. New service units (i.e. daily to hourly) and rates will be implemented on July 1, 2019.
- 3. Supported Employment facility based, small group, and large group supports will now be supported under Career Exploration. Career Exploration are time-limited services to help participants learn skills to work toward competitive integrated employment. Participants must have an employment goal within their Person-Centered Plan that outlines how they will transition to community integrated employment (such as participating in discovery and job development). Career Exploration will transition from a daily rate to an hourly rate on July 1, 2019. New service units (i.e. daily to hourly) and rates will be implemented on July 1, 2019.

Employment Discovery and Customization will end on June 30, 2019 and transition to the new Employment Services that includes discovery, job development, on going job supports, follow along supports, self-employment development supports, and co-worker employment supports.

Community Learning Services changes include:

- 1. The name will change to Community Development Services.
- 2. The scope includes supporting the participant with development and maintenance of skills related to community membership through engagement in community based activities with people without disabilities.
- 3. An individualized schedule will be used to provide an estimate of what the participant will do and where the participant will spend their time when in this service. The individualized schedule will be based on a Person Centered Plan.
- 4. New service units (i.e. daily to hourly) and rates will be implemented on July 1, 2019.

Day Habilitation changes include:

- 1. An individualized schedule to provide an estimate of what the participant will do and where the participant will spend their time when in this service. The individualized schedule will be based on a Person Centered Plan.
- 2. New service units (i.e. daily to hourly) and rates will be implemented on July 1, 2019.

SERVICE ENHANCEMENTS AND TRANSITIONS - RESIDENTIAL SERVICES

Residential Services include: Community Living—Group Home, Community Living—Enhanced Supports, Shared Living, and Supported Living. Community Living—Group Home and Shared Living service scope has been updated. Community Living—Group Home rate will remain the same until new rates are finalized through the rate study. Shared Living rates will decrease as supplemental services are being transitioned to stand alone waiver services.

Residential Habilitation changes include:

State:	
Effective Date	

- 1. The name will change to called Community Living Group Home services.
- 2. Services are to be provided to no more than four (4) individuals (including the participant) in one home unless approved by the DDA.
- 3. Participants will have access to current professional services being provided (e.g. nursing and behavioral supports) until they transition during the first year to the specific stand-alone services. New service rates will be implemented July 1, 2019.

Community Living-Enhanced Supports

- 1. Community Living—Enhanced Supports is a new service that supports participants, who exhibit challenging behaviors or have court ordered restrictions, with development and maintenance of skills related to activities of daily living, instrumental activities of daily living, socialization, and safety of self and others, by providing additional observation and direction in a community residential setting.
- 2. Providers must have Licensed Behavioral Analysis (LBA), Board Certified Behavioral Analysis (BCBA), and Psychologist on staff that have experience in the following areas: working with deinstitutionalized individuals; working with the court and legal system; trauma informed care; behavior management; crisis management models; and counseling. Direct service staff must have training in trauma informed care; de escalation; and physical management. Based on the needs of the participants, the following additional training will be required for staff including: working with sex offenders; working with people in the criminal justice system; and/or working with the Community Forensics Aftercare program.

Shared Living changes include:

- 1. The scope of services includes recruiting for host homes; facilitating recruitment and matching services of participants and host homes based on the participant's preferences and choice; overseeing quality management and monitoring compliance with program requirements once the arrangement is established; and compensation to host homes for additional household cost.
- 2. During the first waiver year, Shared Living services will transition to the new scope, units and rates.
- 3. Current services provided such as Nursing, Behavioral Supports, and Personal Support services will transition during the first year to the specific stand-alone service.

Supported Living

- 1. Supported Living is a new service that provides participants with a variety of individualized services that support living independently in the community beginning July 2019.
- 2. Supported Living services include assistance and facilitation with finding an apartment or home, roommates, and shared supports based on the participant's preferences and choice; overseeing quality management; and monitoring compliance with program requirements once the arrangement is established.
- 3. If participants choose to live with housemates, no more than four (4) individuals (including other participants receiving services) may share a residence. All residents must have a legally enforceable lease that offers them the same tenancy rights that they would have in any public housing option.

SERVICE ENHANCEMENTS AND TRANSITIONS - SUPPORT SERVICES

Assistive Technology and Adaptive Equipment changes include:

- 1. The name will change to Assistive Technology and Services.
- 2. Provider qualifications are based on the type of assistive technology sought.

State:	
Effective Date	

COMMUNITY PATHWAYS WAIVER – Main and Appendix A Amendment #1 Page 41 of 74

- 3. Service scope was expanded to demonstrate the various supports available and includes a needs assessment, training and technical assistance, repairs and maintenance.
- 4. Assistive Technology, recommended by the team, that costs up to \$1000 per item does not require a formal assessment

Behavioral Support Services changes include:

- 1. The scope of services includes behavioral assessment, development of a behavioral plan, behavioral consultation, and brief implementation supports.
- 2. The behavioral assessment and behavioral plan will be reimbursed based on a milestone.
- 3. Behavioral Assessment services are limited to one per year unless otherwise approved by the DDA.
- 4. Behavioral Consultation services and Brief Support Implementation Services are based on assessed needs, supporting data, plan implementation, and authorization from the DDA.
- 5. Provider qualifications and staff requirements were enhanced to include staff training in Applied Behavioral Analysis and tiered behavioral supports.
- 6. Behavioral Support Services consultation and brief support implementation services will be limited to 8 hours per day. The rates will decrease.

Environmental Assessment changes include:

1. Addition of new Environmental Assessment Service Report to document findings and recommendations based on an onsite environmental assessment of a home or residence (where the participant lives or will live) and interviews the participant and their support network (e.g. family, direct support staff, delegating nurse/nurse monitor, etc.).

Environmental Accessibility Adaptations changes include:

- 1. Service name changed to Environmental Modifications.
- 2. An environmental assessment must be completed as per the environmental assessment waiver services requirements.
- 3. Environmental Modifications recommended by the team that cost up to \$2,000 does not require a formal assessment.
- 4. Limitation changed from not to exceed \$17,500 (combined total with Vehicle Modifications) over an individual's lifespan unless authorized by DDA to not to exceed a total of \$15,000 every three years independent of Vehicle Modifications.

Family and Individual Support Services changes include:

- 1. Current services to (a) link participant with the community, (b) provide training, facilitating opportunities, or accompanying the participant, and (c) provide family support groups and training will now be provided under new services, revised services, or current services such as Participant Education, Training, and Advocacy Supports; Family Caregiver Training and Empowerment Services; Housing Support Services; Community Development Services; and Coordination of Community Services.
- 2. Individual Directed Goods and Services will continue to be provided for participants choosing the self-directed service delivery model and will now be called Individual and Family Directed Goods and Services. The service limit was increased from \$2,000 to \$5,500 per year from the total self-directed budget of which \$500 is dedicated to staff recruitment and advertisement.

Family and Peer Mentoring Supports is a new service that provides mentors who have shared experiences as the participant, family, or both participant and family and who provide support and guidance to the participant and his or her family members. Family and Peer mentors share life

State:	
Effective Date	

experiences and explain community services, programs, and strategies they have used to achieve the waiver participant's goals. It fosters connections and relationships which builds the resilience of the participant and his or her family.

Family Caregiver Training and Empowerment is a new service that provides education and support to the unpaid family caregiver of a participant that preserves the family unit and increases confidence, stamina and empowerment to support the participant. Education and training activities are based on the family/caregiver's unique needs and are specifically identified in the Person Centered Plan.

Housing Support Services

- 1. Housing Support Services is a new service that provides time-limited tenancy supports to help participants navigate housing opportunities; address or overcome barriers to housing; and secure and retain their own home.
- 2. Housing assistance staff training requirements include: conducting a housing assessment; affordable housing resources; leasing processes; and tenant and landlord rights and responsibilities.

Live-in Caregiver Rent changes include:

- 1. Service name changed to Live-In Caregiver Supports.
- 2. Scope of services now includes additional cost of rent and food that can be reasonably attributed to an unrelated live in personal caregiver who is residing in the same household with an individual.
- 3. Live in Caregiver Supports scope and rate increased with the addition of a food allowance.

Nursing Services

- 1. Three new nursing services will be offered as standalone waiver services including Nurse Consultation, Nurse Health Case Management, and Nurse Case Management and Delegation Services.
- 2. Nursing services are available under both the self-directed and traditional service delivery models.

Participant Education, Training, and Advocacy Supports is a new service that provides training programs, workshops and conferences that help the participant develop self-advocacy skills, exercise civil rights, and acquire skills needed to exercise control and responsibility over other support services.

Personal Supports changes include:

- 1. Personal Supports service scope was updated to reflect individualized habilitative supports, delivered in a personalized manner, to support independence in a participant's own home and community in which the participant wishes to be involved based on their personal resources.
- 2. Personal Support services assist participants who live in their own or family homes in acquiring the skills necessary to maximize their personal independence. These services include: in home skills development, community integration and engagement skills development, and incidental personal care services during in home skills development and community activities.
- 3. Transportation cost associated with the provision of services will be covered within the new rate effective July 2019.
- 4. Personal Support Services rate will remain the same until new rates are finalized through the rate study. New rates will be implemented on July 1, 2019.

Remote Support Services is a new service that provides oversight and monitoring within the participant's home through an off site electronic support system in order to reduce or replace the amount of staffing a participant needs.

State:	
Effective Date	

Respite Care Services changes include:

- 1. Respite is short-term day care that may not exceed \$7,248 annually. The type of respite chosen will impact the amount of daily, hourly, or camp with less daily and hourly options and more camp options. Participants seeking habilitation supports as an alternative to the basic day care break from the daily routine can seek additional Meaningful Day and Personal Support services.
- 2. Services can be provided at an hourly rate for 8 hours or less; or at a day rate for over 8 hours daily.
- 3. The total cost for daily, hourly, and camp cannot exceed \$7,248 within a twelve month period.

Transportation changes include:

- 1. Scope of services expanded to include prepaid transportation cards.
- 2. Limitation increased for traditional service delivery model from \$1,400 to \$7,500 per year to support community integration and engagement.

Vehicle Modifications limitation changed from not to exceed \$17,500 (combined total with Environmental Accessibility Adaptations) over an individual's lifespan unless authorized by DDA to not to exceed a total of \$15,000 every ten years independent of Environmental Modifications.

SELF DIRECTION

Participants or their legal guardian have the option to choose the self-directed service delivery model. Adult participants can independently self-direct their services or choose a "designated representative." A designated representative is a person authorized by the participant, on the form provided by the Department, to serve as a representative in connection with the provision of services or supports under the self-directed services delivery model. The participant, legal guardian, or his/her designated representative must be capable of making informed decisions in order to participate under this service delivery model.

Participants choosing to use the self directed service delivery model will continue to have access and support from Advocacy Specialist, Coordinators of Community Services, Support Brokers, and Fiscal Management Services. Support Broker services will be an optional administrative service and no longer included in the participant's self-directed budget. Transition of provider owned and operated Day Habilitation services for participants self-directing will occur during the first year during annual Person-Centered Plan meetings or sooner.

Participants can exercise employer or budget authorities on various services. Employer authority means the participant has decision making authority over staff that provide specific services. The participant is the common law employer. Employer authority services opportunities are available for the following services: (1) Community Development Services; (2) Personal Supports; (3) Respite Care; (4) Transportation; and (5) Supported Employment.

Budget authorities means the participant has decision making authority over their self-directed service budget. Budget authority opportunities are available for the following services: (1) Assistive Technology and Services; (2) Behavioral Support Services; (3) Community Development Services; (4) Day Habilitation; (5) Employment Discovery and Customization; (6) Employment Services; (7) Environmental Assessment; (8) Environmental Modifications; (9) Family and Peer Mentoring Supports; (10) Family Caregiver Training and Empowerment Services; (11) Housing Support Services; (12) Individual and Family Directed Goods and Services; (13) Live In Caregiver Supports; (14) Nurse Consultation; (15) Nurse Health Case Management; (16) Nursing Case Management and Delegation Services; (17) Participant Education, Training, and Advocacy Supports; (18) Personal Supports; (19)

State:

Remote Support Services; (20) Respite Care Services; (21) Supported Employment; (22) Supported Living; (23) Transition Services; (24) Transportation; and (25) Vehicle Modifications.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 <u>HCB Settings</u> describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

The state assures this waiver amendment or renewal will be subject to any provisions or requirements
included in the state's most recent and/or approved home and community-based settings Statewide
Transition Plan. The state will implement any CMCS required changes by the end of the transition
period as outlined in the home and community-based settings Statewide Transition Plan.
As per Maryland's State Transition Plan (STP) current providers have until March 2022 to come into
full compliance with the HCR Settings requirements
Full compliance with the Fieb Settings requirements.
The State of Maryland submitted the Statewide Transition Plan (STP) for Compliance with Home and
Community-Based Setting Rule on March 12, 2015. The State received initial approval from CMS on
August 2, 2017, which is reflected below. The plan is posted to the Department website at:
https://mmep.health.maryland.gov/waiverprograms/Pages/Community-Settings-Final-Rule.aspx
The State assures that the information regarding the settings transition plan included with this waiver
will be subject to any provisions or requirements included in the State's approved Statewide Transition
Plan (STP). The State will implement any required changes upon final approval of the Statewide
Transition Plan and will make conforming changes to its waiver when it submits the next amendment.
The STP covers three major areas: Assessment, Proposed Remediation Strategies, and Public Input. It
identifies the framework and strategy for achieving and maintaining compliance with the federal
requirements for HCB-settings in Maryland.

State:	
Effective Date	

CCS conduct quarterly face to face visits to monitor service delivery including progress on goals,
assessment of services as per the plan, status and confirmation of health services, eligibility, and
incidents.
In accordance with the Department's Policy on Reportable Incidents and Investigations (PORII), all
entities associated with the Community Pathways Waiver are required to report alleged or actual
significant incidents in the DDA incident module including unauthorized restraints. Follow up and
investigative actions are taken as per policy and data are analyzed for trends and to identify areas in need
of improvement.
Any person who believes that an individual has been subjected to abuse, neglect, or exploitation is
required to report the alleged abuse, neglect, or exploitation immediately to the police. Adult Protective
Services (APS) or Child Protective Services (CPS) office, and the DDA Regional Office. The complete
incident report must be submitted within one working day of discovery.
The DDA also utilizes the National Core Indicators surveys to measure and track performance related to
core indicators. Core indicators are standard measures used across states to assess the outcomes of
services provided to individuals and families. Indicators address key areas of concern incl <mark>uding</mark>
employment, rights, service planning, community inclusion, choice, and health and safety.
The DDA also receives guidance from CMS, The Hilltop Institute, and stakeholders when establishing
criteria for engaging in site specific assessments.
INITIAL ASSESSMENT STRATEGIES AND FINDINGS
Below are brief summaries of each activity OHSOLTSS and DDA undertook to complete an initial
analysis of the DDA service delivery system for compliance with the new HCB setting rule. This initial
analysis is general in nature and does not imply that any specific provider or location is non-compliant
solely by classification or service type.
solely by classification or service type.

lease, may choose a private room or a roommate, are guaranteed privacy and flexible access to food, and
experience significant barriers related to provisions of the Community Settings Final Rule.
Assessments of DDA Statute, Waiver Application, and Regulations
responsibilities of DDI states, war of reputation, and regulations
Between September and November of 2014, the DDA completed a review of the State regulations
including the Code of Maryland Regulations (COMAR) 10.09.26, 10.09.48, and 10.22 to determine the
current level of compliance with the new federal requirements. COMAR-10.09 are specific to the
Community Pathways Wavier and DDA's targeted case management services under the Medical Care
Programs. COMAR 10.22 are specific to Developmental Disabilities and include 20 individual chapters
on specific topics or services such as definitions; values, outcomes, and fundamental rights; individual
plan; vocational programs; and community residential services. Regulations and statutes specific to
institutional settings only were not included as they are not considered community or comply with the
rule. In order to crosswalk regulation and waiver applications, Maryland utilized the "HCBS Worksheet
for Assessing Services and Settings", developed by the Association of University Centers on Disabilities
(AUCD), National Association of Councils on Developmental Disabilities (NACDD), and the National
Disability Rights Network. This has allowed for consistency across programs and documents.
Disability Rights (vetwork, This has allowed for consistency across programs and documents.)
The preliminary review resulted in identification of missing criteria dictated by the Community Settings
Final Rule and language that conflicts or is out of compliance with the rule that will require remediation.
At times, language is noted that is similar to the federal requirements but may not apply to all services or
elements of the requirement. See Appendix K for specific details.
of the responding the reportant to the special to
PRELIMINARY FINDINGS RELATED TO THE DDA SERVICE DELIVERY SYSTEM
TREEDIM VICT TITUE TO REED TO THE DOTT SERVICE DEED VERT STOTEM
Through the process described above, the State has determined that the following waiver services
comply with the regulatory requirements because they are individualized services provided in the
participant's private home or community:
1. Assistive Technology and Adaptive Equipment—technology and equipment to help participants live
more independently
skills, gaining social acceptance, and becoming full participants in the community. Services are
provided in residential habilitation sites, participant's homes, and other non-institutional settings to
help increase independence including: behavior consultation; behavior plan development and
monitoring; behavioral support; training for families and other service providers; behavioral respite;
and intensive behavioral management services. Current regulations, COMAR 10.22.10.08 and
10:22.10.09, permit physical restraint and use of mechanical restraints and supports when the
individual's behavior presents a danger to self or serious bodily harm to others or medical reasons.
Regulations require a formal behavioral plan that includes historical information, analysis, strategies,
and informed consent from the individual or guardian, as applicable.
1. Employment Discovery and Customization—time limited, community based services for up to six
months, designed to provide discovery, customization, and training activities to assist a person in
gaining competitive employment at an integrated job site where the individual is receiving
comparable wages. Regulations are being drafted by a stakeholder group which will be reviewed for
compliance with the Community Settings Final Rule.
1. Environmental Accessibility Adaptations—adaptations to make the environment more accessible
1. Environmental Assessment assessment for adaptations and modification to help participants live
more independently
1. Family and Individual Support Services—assistance in making use resources available in the
community while, at the same time, building on existing support network to enable participation in
the community
1. Fiscal Management Services - assistance with the financial tasks of managing employees for
participants who salf direct their services

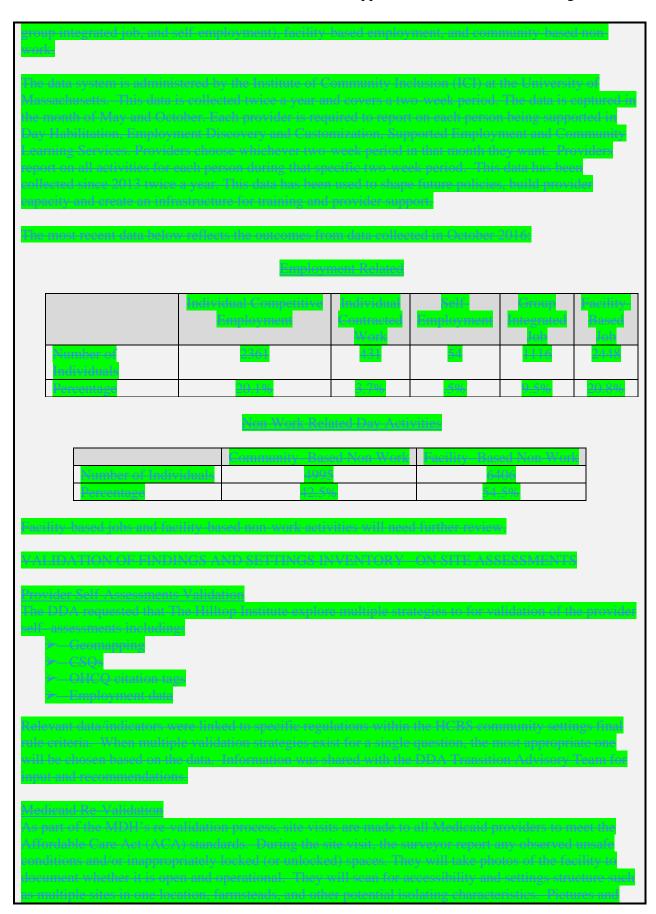

State:	
Effective Date	

1. Live In Caregiver Rent - funding for caregiver rent
1. Personal Supports hands on assistance or reminders to perform a task in own home, family home,
in the community, and/or at a work-site
1. Respite—short term relief service provided when regular caregiver is absent or needs a break. The
service is provided in the home and/or community settings to meet planned or emergency situations,
giving caregivers a time free from their role as care provider.
1. Support Brokerage—assistance with the self-directed services
1. Transition Services—one time set up expenses when moving from an institution or a provider
setting to a living arrangement in a private residence
1. Transportation services include mobility and travel training including learning how to access and
utilize informal, generic, and public transportation for independence and community integration.
1. Vehicle Modifications—modifications to vehicles to meet participant's disability related needs.
1. Community Learning Services Community based services, activities, support, and education to
help individuals whose age, disability, or circumstances currently limits their ability to be employed,
and/or participate in activities in their communities. They assist in developing the skills and social
supports necessary to gain, retain, or advance in employment. Service can be provided in groups of
no more than four (4) individuals with developmental disabilities, all of whom have similar interests
and goals as outlined in their person-centered plan except in the case of self-advocacy groups. They
can also provide assistance for volunteering and retirement planning/activities. Community Learning
Services must be provided in the community and are not allowed to be provided in residential or day
facilities owned or controlled by Medicaid providers.
rachities owned or controlled by Medicald providers.
provided when regular caregiver is absent or needs a break. The service will remain in the Community Pathways waiver and will be provided in the home and/or community settings to meet planned or emergency situations, giving caregivers a time free from their role as care provider. Based on guidance received from CMS, the MDH believes that because Respite Services are allowable in facilities that do not meet the HCB setting criteria that these settings will not need further review.
The State has determined that the following waiver services, associated regulations, and processes need further review and remediation to fully comply with the regulatory requirements. MDH will work with stakeholders and providers of these services to implement the changes needed to achieve full compliance. 1. Community Residential Habilitation—Services are provided in either group homes (GHs) or alternative living units (ALUs) and help individuals learn the skills necessary to be as independent as possible in their own care and in community life.
ALUs can be licensed to support one to three individuals and GHs can be licensed for up to eight individuals. Special permission is required for any individual living in a home of greater than three individuals. In reviewing these exceptions, the following are considered: 1) the wishes of the individuals living in or proposing to live in the home, 2) the interests of the individuals living in or proposing to live in the home, 3) health and safety, and 4) other exceptional circumstances. Provider data noted above indicated there are several residential provider sites with more than three individuals. These sites will need further review to ensure compliance with the rule.
In addition, some sites have farmstead or disability specific farm community characteristics or have multiple service settings co located which will require further review. Residential providers have various sites that are established to meet the individual needs of the resident. Providers shared concerns with the self-assessment survey as it was based on a single site or facility and answers to questions would vary depending if based on specific sites. Further review of each site is needed to identify areas of concerns per site.

review can be viewed at: https://dda.health.maryland.gov/Pages/waiver%20feedback.aspx
DDA Provider Specific Surveys
In partnership with the DDA Transition Advisory Team and the assistance of The Hilltop Institute, the
MDH developed new provider specific (i.e. Residential and Non Residential) comprehensive self-
assessment surveys specific to the DDA service delivery system and UCP setting requirements to
assessment surveys specific to the EDDA service derivery system and Treb setting requirements to
provide additional data to determine compliance. As noted in The Hilltop Institute's initial survey report
there were several limitations to the initial surveys as they did not account for different waiver
populations and provider systems. Prior to the implementation of a provider self-assessments survey,
the MDH piloted test surveys with a volunteer group or providers for both the Residential and Non-
Residential Surveys to test the survey questions and results. Surveys were revised based on
recommendations from the DDA Transition Team and dissemination to related provider groups.
Non Recidential Provider Salf Assessment
MDH, with information supplied by DDA, sent waiver providers an email on April 22, 2016 announcing
the necessity of completing the upcoming provider self assessment. The email also contained a PDF
in the same of compressing the appearing provider assessment. The chair also contained at 21
version of the assessment instrument for providers to preview and information regarding webinars to
assist providers in completing the self-assessments. MDH also sent providers a personalized email on
April 27 announcing the opening of the self-assessment after the webinar on April 28. Webinars held on
April 28 and April 29 walked providers through the assessment and helped answer questions. Providers
were further instructed to complete self-assessments for each service at each site a provider operated.
Providers were instructed to complete the self-assessments by May 16, 2016; however, the online
assessment remained open until July 25, 2016.
In order to determine provider compliance, relevant questions/indicators were linked to specific
regulations within the HCBS community settings final rule criteria. MDH had developed a
regulations within the Trebb community settings that rule effection, within additional and the settings that rule effection, within the trebb community settings that rule effection, which is the setting that rule effection and the setting that rule effection is the
compliant/non-compliant analysis scheme in which providers who were non-compliant on any one
indicator for a specific regulation were deemed non-compliant for that entire regulation. DDA agreed to
use this same analysis scheme. Additional key questions were denoted as "red flag questions." Providers
who were deemed non-compliant on these questions may require more immediate attention from DDA.
One hundred seventeen (117) providers completed assessments, totaling 377 completed assessments,
The plurality of the service settings are day habilitation settings, which account for 48 percent of the
completed assessments. The Hilltop Institute "HCBS Final Rule: DDA Non Residential Provider Self-
Assessment Summary" September 22, 2016 full report can be viewed on the MDH website.
B. 21 21 B 21 C 18 A
Residential Provider Self-Assessment
DDA sent providers an email on June 8, 2016 announcing the necessity of completing the upcoming
provider assessment. The email also contained a PDF version of the assessment instrument for providers
taran da antara da a
to review and information regarding webinars to assist providers in completing the self-assessments.
MDH also sent providers a personalized email on June 13, 2016 after an informational webinar

State:	
Effective Date	

announcing the opening of the self-assessment. Included in this email were the provider's medical assistance number, DDA license number and site numbers, and instructions to enter the numbers into the provider's self-assessment(s).
Webinars held on June 12 and 13, 2016 walked providers through the assessment and helped answer questions. Providers were further instructed to complete self-assessments for each site operated.
Providers with 40 or fewer sites were instructed to complete all of their site assessments by July 31. 2016 and providers with over 40 sites were instructed to complete all of their site assessments by August 31, 2016. However, the assessment remained open until the morning of November 7, 2016.
One hundred thirty four providers completed assessments for each site operated, totaling 1,964 completed assessments. The maximum number of assessments completed by a provider was 75, while the minimum was 1. The average number of assessments completed by a provider was 15. The plurality of the service settings are alternative living units, which account for 64 percent of the completed assessments. The Hilltop Institute "HCBS Final Rule: DDA Residential Provider Self Assessment Summary" November 22, 2016 full report can be viewed on the MDH website.
Provider Transition Plans The Department sought input from the DDA Transition Advisory Team on a standardized Provider Transition Plan template, instructions, guidance, and development of a reconsideration request process. The Provider Transition Plan template was prepopulated with concerns/issues for specific sites based on the provider's responses to the survey questions and Medicaid's compliant/non-compliant coding scheme. Any provider who felt that they misunderstood the question(s) or that Department misunderstood their response(s) had the opportunity to submit a request for reconsideration within 10 days. The Provider Transition Plan guidance and supporting documents can be viewed on the MDH website. Providers had up to 90 calendar days to submit their Provider Transition Plan which included transitional codes to assist with organizing and reviewing and details of the provide specific transitional strategies.
PARTICIPANT ASSESSMENTS MDH will be using the Community Setting Questionnaire (CSQ) approved by CMS under the
Community First Choice program for all waiver programs, including the Community Pathways program. See <u>Appendix 12</u> for the day program CSQ and <u>Appendix 13</u> for the residential program CSQ.
DDA's Coordinators of Community Services (case managers) will administer the CSQ during quarterly monitoring visits and enter into a database so a comparison can be made between the participant questionnaire and the provider self-assessment.
The CSQ will then be conducted annually or with any chance in service settings. The CSQ is also being incorporated into Maryland LTSS tracking system to support ongoing monitoring. System implementation is scheduled for 2018.
The CSQs will also be used as one strategy to validation provider self-assessments and gather information about the setting. It is not a participant experience or satisfaction survey. The Department will work with the DDA Transition Advisory Team to explore strategies to use the new person-centered plan and relevant discovery focus areas for assessing ongoing compliance.
Site Specific Assessment

State:	
Effective Date	

Deced on the results of the preliminary date analysis and statewide provider surrey. Maryland will
Based on the results of the preliminary data analysis and statewide provider survey, Maryland will identify specific licensed sites that will need further review prior to the completion of a comprehensive
setting results document in order to validate the information obtained through the comprehensive survey.
Validation of the compliance of the specific sites will be determined by CMS guidance as to what is and
is not a community setting. CMS has issued clear guidance that any setting that has the effect of
isolating individuals receiving Medicaid HCBS from the broader community of individuals not receiving
Medicaid HCBS is presumed to have the qualities of an institution. Maryland, with the assistance of
The Hilltop Institute and stakeholders, will utilize this guidance in developing and establishing criteria
for engaging in site-specific assessments. Results of the site-specific assessments will be used to
identify specific settings that do not meet the HCB setting requirements. Site visits will be coordinated
by the DDA during the months of July through December 2017.
by the DDAY during the months of July through December 2017.
DDA-Rate Study
As per Maryland legislation passed last year, Chapter 648 of the Acts of 2014, the DDA procured a
contractor to conduct an independent cost driven rate setting study, develop a strategy for assessing the
needs of individuals receiving services, develop a sound fiscal billing and payment system, and obtain
input from stakeholders including individuals receiving services and providers. This rate setting process
will look at all current and proposed new services. The anticipated duration of services to be provided
under this contract is an eighteen month base period and two one year option periods. During the initial
eighteen-month performance period, the contractor will define the rates and provide a fiscal impact
analysis. The option periods will be exercised if implementation support is required.
analysis. The option periods will be exercised if imprehentation support is required.
Comprehensive Setting Results of the DDA Service Delivery System
Comprehensive Seams Nearly District Deriver Bernery System
Maryland will develop a comprehensive setting results document, which identifies and publically
disseminates the DDA service delivery system's level of compliance with HCB setting standards. The
data gathered from the comprehensive setting results document will be utilized to begin the process of
correction and implementation of the necessary remedial strategies.
Maryland will develop a comprehensive setting results document which identifies the number of DDA
settings that:
*Fully comply with the HCB-setting requirements;
*Do not meet the HCB setting requirements and will require modifications; and
Are presumptively non-home and community based but for which the State will provide
justification/evidence to show that those settings do not have the characteristics of an institution and do
have the qualities of home and community based settings for CMS' heightened scrutiny process.
DDA Oversight Process/Quality Assurance To Ensure Continuous Compliance With HCB Setting
Criteria
DDA Transition Advisory Team
DDA Transmon Advisory Team
The DDA Transition Advisory Team (TAT) was established to provide information and guidance to the
MDH related to strategies associated with the State Transition Plan due to the unique needs of
individuals with developmental disabilities, the DDA provider service delivery network, and historical
practices. The group includes program participants, family members, self-advocates and representation
from various stakeholder organizations such as: People on the Go (self advocacy organization), the
Maryland Developmental Disabilities Council, the Maryland Center for Developmental Disabilities, the
DDA Quality Advisory Council, the Disability Rights Maryland (formerly the Maryland Disability Law
Center), The Arc of Maryland, the Coordination of Community Services Coalition, and the Maryland
Association of Community Services (MACS) (provider association). This group provides

The DDA established a stakeholder group to assist with the development of Tiered Standards. Tiered tandards provides an opportunity for Maryland to develop best practices and new innovative service elivery models, as the current service models were developed in 1986. Four subgroups were formed elated to Employment and Day Services, Residential Services, Training, and Finance. Secommendations from these subgroups can be viewed on the MDH website. New standards may stablish or premote new or existing models of service that more fully meet the DDA's vision and riority focus areas including self-direction, self-determination, employment, supporting families, and independent supported housing. Once finalized, the standards will be incorporated into a waiver mendment. Current day and residential settings currently in use in the Community Pathways waiver may continue within the waiver, as long as they will be able to meet the minimum standard set in the ale on or before the end-of the transition period. The DDA may suspend admission to the setting or

tandards.
IEICHTENED SCRUTINY
Maryland will require heightened scrutiny for the following settings, but not limited to:
- Sheltered workshops
o Farmsteads
 Licensed residential sites in close proximity (e.g. next door or multiple homes on a cul de sac)
Maryland will identify settings that may appear to have qualities of an institution or appear to be
solating individuals from the community but have been determined to meet the community settings
equirements. MDH's heighten scrutiny reviews will consist of:
 A review of person centered support plans and Community Setting Questionnaire for individuals
receiving services in the setting
- Interviews with service recipients
 A review of data pertaining to services utilized by persons receiving services in the specified
setting
 An on-site visit and assessment of physical location and practices
 A review of policies and other applicable service related documents
 Additional focused review of the agency's proposed transition plan as applicable including how
each of the above is expected to be impacted as the plan is implemented
State determination regarding:
• State determination regarding: • Whether the setting in fact is "presumed to have the qualities of an institution" as
defined in rule/guidance
Whether the presumption is overcome based on evidence
 Collection of evidence to submit to CMS to demonstrate compliance
AARYLAND'S TRANSITION REMEDIATION STRATEGIES
is important to note that the intent of the transition plan and remediation strategies is not to close or
erminate providers but instead, to work with participants, providers and other stakeholders to come into
ompliance with the CMS Final Rule and the vision of ensuring individuals are fully integrated into the
ommunity, afforded choice, and have their health and safety needs met. The table below outlines the

State:	
Effective Date	

Timeline: 4/2015
Milestone: Department Transmittal, Group Home Moratorium, Group Home Moratorium Clarification
Monitoring: Office of Health Services and established transition team
Remediation Strategy: MDH to issue formal statement regarding HCB setting vision, expectations, and
standards in compliance with the CMS rule. Timeline: 4/2015
TOPIC: Lease or Other Legally Enforceable Agreement - Service providers use different leases or
residency agreements for the service they provide. Maryland will request a representative sample of
leases or residency agreement to assess for compliance with the Community Settings Final Rule.
Timeline: 12/2018
Milestone: Lease and Residency Agreements Summary
Monitoring: OHSOLTSS and established transition team
Remediation Strategy:
1. Collect and assess provider lease or residency agreement to determine if they are legally
enforceable and comply with Final Rule. Timeline: 5/2015
1. Explore standard lease or agreement for specific service delivery system. Timeline: 6/2015
1. Work with the stakeholders and Maryland Disability Law Center and Legal Aid to explore local
county requirements and propose recommendations to be reviewed by the public and
implemented across the similar programs. Timeline: 6/2016
1. Regulation requirement in COMAR Fall 2017
1. Communicate standards with participants and providers. Timeline: 12/2017
1. Providers come into compliance with lease agreement requirements. Timeline: 12/2018
1. Maryland assesses ongoing compliance by reviewing all leases and residency agreements of all
new providers and a randomly selected, statistically significant sample of existing providers
annually. Timeline: Ongoing
TOPIC: Initial Participant and Provider Surveys - Based on the results of the preliminary surveys which
grouped programs together, Maryland will work with program transition teams to develop waiver
(program) specific comprehensive surveys that will provide data to further assess compliance with the
Final Rule. Due to the unique individual needs and provider sites, a survey is to be completed for each
ticeased site
Timeline: 6/2015
Milestone: Survey Report
Monitoring: Office of Health Services and established stakeholder transition teams
Remediation Strategy: Develop waiver program specific participant, provider, and site assessments
survey techniques and alternative methodologies to determine provider compliance with the HCB setting
rule including identifying supports for participants in completing the surveys. Timeline: 6/2015
TODIO D. II T. II C. M. I. I. I. I.
TOPIC: Provider Transition Symposium - Maryland, in partnership with stakeholders, will conduct a
symposium to share communities of practice and transition strategies from Maryland service providers
and national entities.
Timeline: 12/2018
Milestone: Provider Transition Symposium
Monitoring: Office of Health Services and established stakeholder transition teams
Remediation Strategy: Provide technical assistance for providers to transition current service delivery
system to comply with new HCB setting rule. Timeline: 12/2018
TOPIC: Waiver Amendments—Based on assessment of waiver programs, independent consultant
findings, and stakeholder input, amend waiver programs to comply with the Final Rule. To provide time
for development of new service models, business processes, rates and stakeholder input, program
changes may occur in stages with additional amendments submitted at later dates.
Timeline: 7/2016
I mainar // /III a

State:

Milestone: Waiver Amendment # 1
Monitoring: Office of Health Services and established transition team
Remediation Strategy: Submit Community Pathways Waiver Amendment to CMS
TOPIC: Pilot Waiver Specific Surveys - Prior to implementation of a waiver program specific survey,
Maryland will administer the program specific surveys using a pilot group in order to assess the validity
and reliability of the survey.
Timeline: 1/2015
Milestone: Pilot Survey Summary
Monitoring: Office of Health Survey and established transition team
Remediation Strategy: Piot program surveys for participants and providers.
TOPIC: Provider Enrollment and Provider Training Review and revise, as needed, the program
provider enrollment and recertification processes. Provide training to new and existing providers to
educate them on the new HCB settings requirements, provider transition plans, and State actions for
noncompliance.
Timeline: 1/2016
Milestone: Revised Provider Enrollment Process and Provider Training
Monitoring: Office of Health Services and established transition team
Remediation Strategy: Review and revise provider enrollment and provide training as applicable.
Timeline: 1/2016 and Ongoing
TOPIC: Participant and Provider Surveys Once the pilot surveys have been validated, Maryland, with
the advice from program transition teams, will implement system wide surveys for participants and
providers. The Hilltop Institute will analyze the data and provide a report on the survey results for each
waiver program. The results will be shared with stakeholders throughout the systems.
Timeline: 1/2017
Milestone: Survey Results Summary
Monitoring: Office of Health Services and established transition team
Remediation Strategy:
1. Conduct waiver program specific participant and provider surveys to determine compliance with the
1. Conduct waiver program specific participant and provider surveys to determine compliance with the Final Rule. Timeline: 1/2017
1. Maryland intends to suspend provider numbers of the providers who fail to complete the survey after
two requests. Providers will be informed of this in the introduction letter and through transmittal to
providers. Telling the provider that the State will assume that they are not in compliance if they do
not respond, and make a plan for relocation. Timeline: Ongoing
not respond, and make a plan for relocation. Timeline: Ongoing
HODIC DRAD II H. II N. M. I D.
TOPIC: DDA Provider Transition Plans - Maryland's program administering agencies will provide
technical assistance for providers whom have been identified as non-compliant with the rule.
Stakeholder transition teams will provide guidance on remediation processes and format of provider
transition plans. Providers interested in continuing to providing services shall develop transition plans to
comply with the Final Rule. Plans will be reviewed and monitored for implementation by the applicable
program's administering agency.
Timeline: 3/2018
Milestone: Provider Training and Provider Transition Plans
Monitoring: DDA (Program Administering State Agencies)
Remediation Strategy:
1. Maryland to develop and provide training for providers on requirements of transition plans.
Timeline: 7/2017
1. Providers to develop transition plans to come into compliance with Final Rule. Timeline: 12/2017

State:	
Effective Date	

State:	
Effective Date	

TOPIC: Heightened Scrutiny Maryland will identify settings that may appear to have qualities of an
institution or appear to be isolating individuals from the community but have been determined to meet
the community settings requirements.
Timeline: 3/2018
Milestone: CMS Approval Decision
Monitoring: Office of Health Services
Remediation Strategy: A review supporting documentation to justify meeting community settings
requirements. Interviews with service recipients. Conduct on site visit and assessment of physical
location and practices. State determination. Collection of evidence to submit to CMS to demonstrate
compliance. Submit to CMS. Timeline 3/2018
TOPIC: Comprehensive Settings Results Report - Maryland will develop a comprehensive setting results
document, which identifies program specific level of compliance with HCB settings standards. This
document will be disseminated to stakeholders throughout the system.
Timeline: 12/2021
Milestone: Comprehensive Settings Results Report
Monitoring: Office of Health Services and established transition team
Remediation Strategy: Comprehensive settings results report will be shared with stakeholders to begin
the process of systemic and provider transitions for compliance. Timeline: 12/2021
are process of 53 sterile and provider manufacture for compilation, the first process of 53 sterile and provider manufacture for compilations.
TOPIC: Provider Disenrollment - In the event a provider either choose not to transition or has gone
through remediation activities and continues to demonstrate noncompliance with HCB setting
and the control of th
requirements, the State will develop a specific process for i provider disensellments.
Timeline: 3/2022
Milestone: Disenrollment Summary
Monitoring: Program Administering State Agency
Remediation Strategy: Maryland will disenroll providers that fail to meet remediation standards and
HCB-settings requirements. Timeline: 3/2022
a Cost settings requirements. This time, 3, 2,222
TOPIC: Participant Transitions—When providers are dis enrolled, participants will be assisted by their
person centered team in exploring new provider options. When a participant must relocate, the State, or
its designated agent, will provide:
1. Reasonable notice to the individual and due process;
1. A description of the timeline for the relocation process; and
1. Alternate setting that aligns, or will align, with the regulation, and that critical services/supports
are in place in advance of the individual's transition.
The State will report the number of participants impacted.
Timeline: 01/2022
Milestone: Relocation Process
Monitoring: Office of Health Services and established transition team
Remediation Strategy: Develop description of the Maryland's process to assure that participants, through
the person-centered planning process, are given the opportunity, the information, and the supports to
make an informed choice for relocation. Timeline: 01/2022
make all finor onotee for rotocation, Tittleffile, Off 2022
TOPIC: Ongoing Compliance and Monitoring—Quality reviews and verification of ongoing provider
compliance with the Final Rule will be assessed by the program administering agency and its agents
such as the Office of Health Care Quality. Maryland to explore common assessment indicators such as
settings questionnaire, NCI, and existing experience survey.
Timeline: Ongoing
Milestone: Quality Reports
Monitoring: Office of Health Services and Program Administering State Agency

State:	
Effective Date	

Remediation Strategy:
1. Review quality indicators/tools being used in waiver programs currently. Timeline: 12/2017
 Look to standardize quality measures across programs. Timeline: 6/2018
1. Assess ongoing compliance with Final Rule by providing technical assistance as needed, and
take appropriate action to remediate, sanction, or dis enroll. Timeline: Ongoing
1. Ensuring 100% compliance providers will be assessed annually with the completion of the
community settings questionnaire. Timeline: Ongoing
1. In addition to the community settings questionnaire the State will also complete site visits to a
randomly selected, statistically significant sample of providers of all types. In all settings that
there is a discrepancy between the provider self-report and the participant survey, a site visit will
also be completed. Timeline: Ongoing
SECTION 3: PUBLIC INPUT AND COMMENT (Abbreviated due to space limitation)
Maryland is committed to sharing information and seeking public input into the State's assessment for
compliance with the Final Rule and the development and implementation of this transition plan. In
October 2014, the OHSOLTSS and DDA established dedicated webpages related to the rule. The
webpages have links to both internal and external sites including the CMS website and the Association
of University Centers on Disabilities (AUCD) HCBS Advocacy site. The website includes the initial
self assessment surveys, printable versions and links to the online survey, lists of questions and
responses from all regional and webinar presentations, and contact information, both a phone number
and devoted email address for questions. The OHS <u>OLTSS</u> site is located at:
https://mmcp.health.maryland.gov/waiverprograms/Pages/Community-Settings Final Rule.aspx

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

State:	
Effective Date	

Appendix A: Waiver Administration and Operation

1. **State Line of Authority for Waiver Operation.** Specify the state line of authority for the operation of the waiver (*select one*):

•	The waiver is operated by the State Medicaid agency. Specify the Medicaid agency division/unthat has line authority for the operation of the waiver program (<i>select one</i>):			
	0	The Medical Assistance Unit (specify the unit name) (Do not complete Item A-2)		
	•	Another division/unit within the State Med	dicai	id agency that is separate from the Medical
		Assistance Unit. Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency. (Complete item A-2-a)		velopmental Disabilities Administration DA)
0		e waiver is operated by a separate agency of the ncy. Specify the division/unit name:	ne S	tate that is not a division/unit of the Medicaid
	the a to the	administration and supervision of the waiver he waiver. The interagency agreement or m	r and	agency exercises administrative discretion in dissues policies, rules and regulations related brandum of understanding that sets forth the lable through the Medicaid agency to CMS

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities.

The Maryland Department of Health (MDH) is the Single State Medicaid Agency (SMA) authorized to administer Maryland's Medical Assistance Program. MDH's Office of Long Term Services and Supports (OLTSS)Office of Health Services (OHS) is the Medicaid unit within the SMA that oversees the Community Pathways Waiver. In this capacity, OHSOLTSS oversees the performance of the Developmental Disabilities Administration (DDA), Operating State Agency (OSA) for the waiver. The OHSOLTSS serves as the point of contact with the Centers for Medicare and Medicaid Services (CMS) with programmatic expertise and support from DDA.

The DDA is responsible for the day-to-day operations of administering this waiver, including but not limited to enrolling participants into the waiver, reviewing and approving community-based agencies and licensure applications for potential providers, monitoring claims, and assuring

State:	
Effective Date	

participants receive quality care and services based on the assurances requirements set forth in this waiver. The DDA is responsible for collecting, trending, prioritizing and determining the need for system improvements.

OHSOLTSS will meet regularly with DDA to discuss waiver performance and quality enhancement opportunities. Furthermore, the DDA will provide OHSOLTSS with regular reports on program performance. In addition, OHSOLTSS will review all waiver-related policies issued. OHSOLTSS will continually monitor DDA's performance and oversight of all delegated functions through a data-driven approach. If any issues are identified, OHSOLTSS will work collaboratively with DDA to remediate such issues and to develop successful and sustainable system improvements.

OHSOLTSS and the DDA will develop solutions guided by waiver assurances and the needs of waiver participants. OHSOLTSS will provide guidance to DDA regarding recommended changes in policies, procedures, and systems.

A detailed Interagency Agreement (IA) outlines the roles and responsibilities related to waiver operation and those functions of the division within OHSOLTSS with operational and oversight responsibilities.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

Not applicable

- 3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):
 - Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable). Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.

As further described below, the DDA currently contracts with community organizations for assistance and services in the following areas: (1) Participant Waiver Applications; (2) Support Intensity Scale (SIS)®; (3) Quality Assurance; (4) System Training; (5) Research and Analysis; (6) Fiscal Management Services (Agency with Choice); (7) Health Risk Screening Tool; (8) MD-Long Term Services and Supports Information System; and (9) Behavioral and Mental Health Crisis Supports.

1. Participant Waiver Application

The DDA contracts with independent community organizations and local health departments as Coordinators for Community Services to perform intake activities, including taking applications to participate in the waiver and referrals to county, local, State, and federal programs and resources.

2. Support Intensity Scale (SIS)®

State:	
Effective Date	

The DDA contracts with an independent community organization to conduct the Support Intensity Scale SIS®. The SIS® is an assessment of a participant's needs to support independence. It focuses on the participant's current level of support needs instead of focusing on skills or abilities they may not currently demonstrate. The Coordinators of Community Service use each completed SIS® as a planning guide in the development of the participant's Person-Centered Plan.

3. Quality Assurance

The DDA contracts with independent community organizations to conduct and analyze results from the National Core Indicator (NCI) surveys. The DDA will be contracting for a Quality Improvement Organization—like organization to support administrative functions related to technical assistance, quality assurance, and utilization review.

4. System Training

The DDA contracts with independent community organizations to provide trainings for individuals, their family members, community providers, Coordinators of Community Services, Support Brokers, DDA staff, and others related to various topics to support service delivery (i.e. person-center planning), health and welfare (i.e. choking prevention), and workforce development (i.e. alternative communication methods).

5. Research and Analysis

The DDA contracts with independent community organizations and higher education entities for research and analysis of waiver service data, trends, options to support waiver assurances, financial strategies, and rates.

6. Fiscal Management Services

The DDA contracts with independent community organization for fiscal management services to support participants that are enrolled in the DDA's Self-Directed Services Model, as described in Appendix E.

7. Health Risk Screen Tool

The DDA contracts with Health Risk Screening, Inc. for training and the use of an electronic Health Risk Screen Tool (HRST) to identify health and safety risk factors for participants and to assist with determining health related support needs and training.

8. LTSS Maryland - Long Term Services and Supports Information System The MDH contracts with information technology organizations for design, revisions, and support of the database that supports waiver operations.

9. Behavioral and Mental Health Crisis Supports

The DDA contracts with independent community organizations for crisis hotline services, mobile crisis services, and behavioral respite services to support participants and families during behavioral and mental health crisis.

10. Organized Health Care Delivery System providers

Participants can select to use an Organized Health Care Delivery System (OHCDS) provider to purchase goods and services from community agencies and entities that are not Medicaid providers. The OHCDS provider's administrative for the action is not charged to the participant.

O No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

State:	
Effective Date	

			cal/Regional Non-State Entities. Indicate whether local or regional non-state entities perform rational and administrative functions and, if so, specify the type of entity (Select one):		
	•	Not applicable			
	0	Applicable - Local/regional non-state agencies perform waiver operational and administrative functions. Check each that applies:			
			Local/Regional non-state public agencies conduct waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state agency that sets forth the responsibilities and performance requirements of the local/regional agency. The interagency agreement or memorandum of understanding is available through the Medicaid agency or the operating agency (if applicable). <i>Specify the nature of these agencies and complete items A-5 and A-6</i> :		
			Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable). <i>Specify the nature of these entities and complete items A-5 and A-6</i> :		
\mathbf{E}	ntitie	s. S	lity for Assessment of Performance of Contracted and/or Local/Regional Non-State pecify the state agency or agencies responsible for assessing the performance of contracted /regional non-state entities in conducting waiver operational and administrative functions:

- 9. Behavioral and Mental Health Crisis Supports DDA's contract monitor reviews submitted invoices and documentation related to delivered services as per the contract upon receipt prior to approval of invoices. Corrective actions are taken for discrepancies.
- 10. Crisis hotline services, mobile crisis services, and behavioral respites services DDA's contract monitor reviews submitted invoices and documentation related to delivered services as per the contract upon receipt prior to approval of invoices. Corrective actions are taken for discrepancies.
- 11. Organized Health Care Delivery System providers DDA audits service providers annually for compliance with DDA policy and regulation and provide technical assistance, training, or request corrective action as needed.

Assessment results will be shared with OHSOLTSS during monthly meetings.

7. **Distribution of Waiver Operational and Administrative Functions.** In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that*

State:	
Effective Date	

Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Function	Medicaid Agency	Other State Operating Agency	Contracted Entity	Local Non- State Entity

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities..

i Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

• Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver

State:	
Effective Date	

- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014).

Where possible, include numerator/denominator.

Performance

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

ii If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

i Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The Office of Long Term Services and Supports (OLTSS) Office of Health Services (OHS) within the State Medicaid Agency (SMA) is responsible for ensuring that the DDA performs its assigned waiver operational and administrative functions in accordance with the waiver requirements. To this end, OHSOLTSS has developed communication and reporting mechanisms to track performance measures as detailed herein.

The DDA submits an Annual Quality Report to OHSOLTSS. It is a report on the status of waiver performance measures and includes discovery findings, remediation strategies, challenges, and system improvements associated with each waiver assurance including Level of Care, Service Plan, Qualified Providers, Health and Welfare, Financial Accountability, and Administration. The report includes any barriers to data collection and remediation steps. The OHSOLTSS, upon review of the report, will meet with DDA to address problems and barriers. Guidance from OHSOLTSS to DDA regarding changes in policies, procedures, or other system changes will be dependent upon the problems or barriers identified. OHSOLTSS and DDA communicate regularly and meet quarterly to discuss performance measures. If problems are identified regarding delegated functions, OHSOLTSS and DDA develop solutions guided by waiver assurances and the needs of waiver participants with OHSOLTSS exercising ultimate authority to approve such solutions.
